Would not be Without
VEGETINE!
FOR TEN TIMES ITS COST.

The great benefit I received from the use of VEGETINE induces me to give my testimony in its favor. I believe it to be not only of great value for restoring the health, but a preventive of diseases peculiar to the spring and summer seasons. I would not be without it for ten times its cost.
EDWIN TILDEN,
Attorney, and General Agent for Massachusetts of the Craftsmen's Life Assurance Company, No. 49 Sears Building, Boston, Mass.

VEGETINE
Purifies the Blood and Restores the Health.
WHAT IS VEGETINE?

It is a compound extracted from barks, roots and herbs. It is Nature's Remedy. It is perfectly harmless from any bad effect upon the system. It is nourishing and strengthening. It acts directly upon the blood. It quiets the nervous system. It gives you good, sweet sleep at night. It is a great panacea for our aged fathers and mothers, for it gives them strength, quiets their nerves, and gives them Nature's sweet sleep, as has been proved by many an aged person. It is a great Blood Purifier. It is a soothing remedy for our children. It has relieved and cured thousands. It is very pleasant to take; every child likes it.

Marvelous Effect.

MR. H. R. STEVENS: *Dear Sir*—I have used the great Blood Remedy, Vegetine, and feel it a duty to acknowledge the great benefit it has done me. In the Spring of the year 1862, I was sick from general debility caused by overwork, want of sleep and proper rest. I was very weak and much emaciated. I tried many remedies without receiving any benefit from any of them, until I was persuaded to try Vegetine. Before I had taken this one week, my improved condition gave me renewed hope and courage. I continued to take it every day, gaining more strength, until I was completely restored to health. The effect of this remedy, in case of general debility, is indeed marvellous.
ELIZABETH A. FOLEY,
May 3d, 1871, 21 Webster St., Charlestown, Mass.

A Perfect Cure.

CHALESTOWN, June 11, 1861.
MR. H. R. STEVENS: *Dear Sir*—This is to certify that Vegetine made a perfect cure of me when my attending physician has pronounced my case consumption, and said I could not survive many days.
MRS. LEDSTON, 35 Cook Street.
The facts stated by Mrs. Ledston are personally known by me, and they are true.
A. D. HAYNES.

A Curious Funeral Sermon in Wales.

The rector of Merthyr recently delivered a lecture at Brecon on "The Church in Wales; or, How Welshmen became Dissenters;" and this was one of his illustrations of the clergy of former days. He said he found in the British Museum, twenty-five years ago, a very old tract, the title of which was "The funeral sermon of one David Morgan, rector of Llanymowddy—a funeral sermon for a dead body." The most singular thing was that the text was in English, although at that time there was no place in the world more Welsh than Dinas Mawddwy; the post did not get there only once in fourteen days. The rector was the veritable man that used to be chaffed for having prayed fourteen days for King William after Queen Victoria had ascended the throne. It was a most extraordinary thing that they should have this old David Morgan preaching a sermon in English. He was not at all particular as to his divinity; his sermon was full of anachronisms; he would illustrate the first century of the Christian era by pictures taken out of the eighteenth. The sermon began with these words: "Good people of Llanymawddy—my dear beloved brethren; we are met together here to-day for a great preachment—a preachment for a dead body—the body of good Squire Thomas, the squire of our parish. We did all love him, though he had scolded us shocking; but he is dead now, as dead as a door nail—yes, indeed—for I did see him with my own eyes before they did screw him up." He [the lecturer] should tell them, in order to state everything fair for poor David Morgan, that the Bible had been stolen. The sermon was this: "The text is taken from the four-and-twentieth chapter of the Prophet Maccabeus; well, indeed, I have forgotten the number of the verse, but I do know the words, I do know them in three languages. The Latin language—it is the language of all learned people; I do know them in the English language, it is the language of all genteel people; I do know 'Watch and pray;' I do know them in the Welsh language, of course it is the language of all vulgar people. Now I will stick to my text; I will, indeed. Our great grandfather Adam was a very good old man, and he was a very happy old man until he did marry a wife. He did live in the garden of Paradise. He did want for nothing there, for every thing did grow into his own hand; he did not want for neither a basin nor a spoon. Talk about gardens, there was a garden! The garden of Squire Thomas was nothing to it, and you know that has four walls, and it would take 20,000 of Squire Thomas's to make such a garden of Paradise. All sorts of trees did grow there; plum trees, gooseberry trees, strawberry trees, pear trees, and apple trees. Talk about apple dumplings, and you men of Llanymawddy, you do boast of your apple dumplings as if there were no apple dumplings in all the world like them; and, indeed, they are very good, only they want a little more sugar; but if you had apples from the garden of Paradise you would want no sugar at all. Well, I did tell you that he did marry a wife, our old grandfather; and oh! there was a beautiful woman; there was a fine figure; and there was hair, but it did grow all over her head and down her back; she did wear it in all sorts of shapes; she wore it like a tower of Babel on her head, and it was all her own hair. Still she was, I do tell you, the beautifullest of all women; but she was a very peculiar woman. She wanted to know everything—things she ought not to know; and, oh women of Llanymawddy! she did go about the garden, and what did happen unto her? She did get with the devil, and the devil did teach her all sorts of things, and he did persuade her to go and rob the orchard, and persuaded her to eat the apple, and she did eat the apple—every bit of it, pipkin and all; and then the devil did persuade her to put one in her pocket, and take it home for her husband, and he did obey his wife like a good man. Well, after this she did have two brave boys; but one was a bad boy—an unlawful rogue like his mother. He did concern with the devil, the devil did tempt him to kill his own brother, and that was the cause of all the mischief in the world. It did bring the lawyers into the world—all the constables into the world; all the excise men—people who go about prying for a drop of good liquor, but there was never a drop of good liquor ever afterwards. Mind you, do not go to the alehouse, it is very bad there; he did go and drink all day there, and come home at night and abuse his family shocking; he did kick his wife and abuse his children, like what you do, William Thomas, and the same as you did last Saturday night. Well, I did tell you about judgments coming into the world. Remember this, there will be one great day of judgment and the parson of Llanymawddy will be asked the question as to the sheeps in his possession. I will tell the truth, plump and plain. I will say there is no sheeps, you are all turned goats with shaggy hair all over, for you have never given me tithe wool from the very day I have been here till now."

Making and Managing a Cistern.

I have for many years made the supply of pure water a specialty, and I have not sunk a well during the past thirteen years, though I have supplied a large number of places with water in that period.

The cistern, when properly constructed, I consider the most reliable, and the most desirable, everything considered, of all means of supply. Certain precautions are, however, as necessary to observe, in the arrangements for obtaining the water, and for preserving it in purity, and to maintain in it a proper temperature, as other precautions are in obtaining water from other sources of supply.—Prominent among the former are the following:

Water should not be collected for drinking or culinary purposes from painted wooden or painted metal roofs, nor from such as are frequented by birds of any kind. I prefer, first, the slate roof, next the shingle. Water from a tile roof would, no doubt, be good, but there are none in use in my field of operation, which comprises nine States.

The foliage of trees should not be allowed to collect and remain in gutters of buildings from which the water is to be collected and used.

In localities in which the roof is liable to collect much dust, from excessively traveled earth, or even McAdam roads, the spoutings should be supplied with what I call a waste shoe, which is an adjustable section of the spouting near the ground, which is to be set during a drought, so that the first rain-fall succeeding a dusty period will waste, and not flow into the cistern.

I have, however, some among my numerous patrons, who may be considered rather fastidious, who will have the filter.

There are circumstances where the filter is necessary, and in such cases I supply them of my favorite kind—in fact, the only kind I build of late. I will briefly describe my filter: I build up in cement mortar a brick wall, of soft, or "salmon bricks," the width of a brick in thickness, which bisects the cistern, and is securely stayed in place. Neither face of the filter wall is plastered with cement, as the principle of the filter consists in causing all the water to flow through the brick wall, which it will do if the surface is that of a cross section of an ordinary cistern, with a rapidity equal to the amount drawn in a given time by an ordinary pump. A filter more perfect is not desirable.—*J. W., in Canada Farmer.*

OPINIONS OF
DISTINGUISHED AMERICANS.
"No. 17 Arlington St., London, England. *Jan. 6, 1870.*
"I thank you for the opportunity of expressing my opinion of the great value of the 'NEW AMERICAN' and 'ANNUAL CYCLOPÆDIA.' I own the work and have it with me here, and am in the habit of consulting it every day to my very great advantage. It is most admirable. J. L. MOTLEY,
"U. S. Minister to the Court of St. James."
"Philadelphia, Nov. 1, 1869.
I consider the New American Cyclopaedia, published by D. Appleton & Co., vastly superior for the American reader to any other Cyclopaedia now before the public. REV. BISHOP SIMPSON."
"Boston, Oct. 25, 1869.
I own Appletons' Cyclopaedia, and use it constantly. It should be in every library, public and private—I would say in every house, within reach of every family. The young should use it.
CHARLES SUMNER."
"I use the 'New American Cyclopaedia' every day, generally many times a day. I think it the best work of the kind in existence. It is singularly well suited to families. The children who grow up in a house where there is a copy of it within reach, can hardly escape becoming well-informed persons. I value it very highly, and am glad of this opportunity of testifying my gratitude.
JAMES PARTON."
"Tribune Office, N. Y. City, Oct. 30, 1869.
MY DEAR SIR: I have used the 'New American Cyclopaedia' since the first volume came into existence, and deem it the best work of the kind in print. Yours, &c., HORACE GREELEY."
"North Shore, S. I., N. Y., Oct. 19, 1869.
Appletons' Cyclopaedia is unquestionably the best popular manual of general reference for an American. GEORGE WILLIAM CURTIS.
"Washington, Nov. 12, 1869.
DEAR SIR: I quite agree with Mr. Curtis, that the 'New American Cyclopaedia' is 'the best manual of general reference for an American.' The annual continuations are also of great value. S. P. CHASE.

WHEREAS, DEFAULT HAS been made in the payment of the money secured by a mortgage dated the 1st day of April, 1870, executed by John D. Deyo, widower, of the Town of Shawangunk, in the County of Ulster and State of New York, to Jane Smith, then the wife of Gardinier Smith, of the Town of Hurley, in the County and State aforesaid, to secure the payment of thirty-seven hundred dollars with interest thereon from the date thereof on the first day of April, 1872, and which mortgage was recorded in the Clerk's office of said County of Ulster in Book No. 110 of mortgages, on page 285, &c., on the 21st day of March, 1872, at 2½ o'clock P. M.

And whereas the said Jane Smith died intestate on the 11th day of January, 1874, leaving Cornelius C. Smith, John F. Smith, Richard C. Smith, Mary Dennis and Jeannette Van Wagenen, all above twenty-one years of age, as her only children and heirs-at-law, her surviving.

And whereas the said Cornelius C. Smith, John F. Smith, Richard C. Smith, Mary Dennis and Jeannette Van Wagenen, duly assigned and transferred all their right, title and interest in and to the said mortgage, and the bond accompanying the same, to their father, Gardinier Smith, by assignment dated the 31st day of January, 1874, duly recorded in the said Ulster County Clerk's office.

And whereas the amount claimed to be due upon said mortgage at the time of the first publication of this notice is the sum of three thousand nine hundred and ninety-one dollars and sixteen cents, to-wit: $3,700 of principal and $291.16 of interest, and which is the whole amount claimed to be unpaid on said mortgage.

Now, therefore, notice is hereby given that by virtue of the said mortgage and the power of sale therein contained and duly recorded as aforesaid and in pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described, at Public Auction at the front door of the Court House, in the City of Kingston, in the County of Ulster and State of New York, on the 20th day of May, 1874, at ten o'clock in the forenoon of that day.

The premises are described in the mortgage as follows: All that certain lot, piece or parcel of land situate in the Town of Shawangunk aforesaid, and is known and distinguished as being the same farm now owned and occupied by John D. Deyo, and is described in three lots or parcels of land as follows, namely: Beginning with the lot the said John D. Deyo purchased from Willet Leuderman and his wife Sarah, and at a corner on the west side of the highway leading to Kingston, then as the needle pointed in 1820 north fifty degrees twenty minutes, west twenty-eight chains fourteen links to a corner of a lot of land sold to Joseph Eckert, then along the same south forty-two and three-quarter degrees west four chains seventy-one links, then north forty-five degrees forty-five minutes west seven chains to the center of a highway leading to Rutsonville; the two last courses are as the needle now points; then as it pointed in 1820 south twenty-nine degrees and forty-five minutes west seven chains and fifty links to a lot bought by Samuel Aldrich and others, then south fifty degrees twenty minutes east twenty-nine chains thirty links to a stone set by the westerly side of the aforesaid highway, then along the same to the beginning, containing thirty-six acres of land.

Also all that other lot purchased from Samuel Aldrich and others, and bounded as follows, namely: North by the above described lot, east by the public highway, south by lands of Peter Van Aken, west by the lands of Abram Vernooy, containing forty acres of land more or less.

Also all that other lot of land which is known as the same farm formerly owned by Jonathan Terwilliger, and is bounded as follows, namely: Beginning at a corner of land belonging to the heirs of William Rosekrans, from thence south seventy-five degrees and thirty minutes west two chains sixteen links to the line of the first described lot, then along the same north forty-seven degrees west ten chains thirty-one links, then north forty degrees and forty-five minutes east four chains and seventy-four links, then south thirty-two degrees forty-five minutes east eleven chains ninety-four links to the beginning, containing three acres and eight-tenths of an acre of land.

Dated February 23, 1874.

Would not be Without
VEGETINE!
FOR TEN TIMES ITS COST.

The great benefit I received from the use of VEGETINE induces me to give my testimony in its favor. I believe it to be not only of great value for restoring the health, but a preventive of diseases peculiar to the spring and summer seasons. I would not be without it for ten times its cost.
EDWIN TILDEN,
Attorney, and General Agent for Massachusetts of the Craftsmen's Life Assurance Company, No. 49 Sears Building, Boston, Mass.

VEGETINE
Purifies the Blood and Restores the Health.
WHAT IS VEGETINE?

It is a compound extracted from barks, roots and herbs. It is Nature's Remedy. It is perfectly harmless from any bad effect upon the system. It is nourishing and strenghening. It acts directly upon the blood. It quiets the nervous system. It gives you good, sweet sleep at night. It is a great panacea for our aged fathers and mothers, for it gives them strength, quiets their nerves, and gives them Nature's sweet sleep, as has been proved by many an aged person. It is a great Blood Purifier. It is a soothing remedy for our children. It has relieved and cured thousands. It is very pleasant to take; every child likes it.

Marvelous Effect.

MR. H. R. STEVENS: *Dear Sir*—I have used the great Blood Remedy, Vegetine, and feel it a duty to acknowledge the great benefit it has done me. In the Spring of the year 1862, I was sick from general debility caused by overwork, want of sleep and proper rest. I was very weak and much emaciated. I tried many remedies without receiving any benefit from any of them, until I was persuaded to try Vegetine. Before I had taken this one week, my improved condition gave me renewed hope and courage. I continued to take it every day, gaining more strength, until I was completely restored to health. The effect of this remedy, in case of general debility, is indeed marvellous.
ELIZABETH A. FOLEY,

A Perfect Cure.

CHALESTOWN, June 11, 1861.
MR. H. R. STEVENS: *Dear Sir*—This is to certify that Vegetine made a perfect cure of me when my attending physician has pronounced my case consumption, and said I could not survive many days.

A Curious Funeral Sermon in Wales.

The rector of Merthyr recently delivered a lecture at Brecon on "The Church in Wales; or, How Welshmen became Dissenters;" and this was one of his illustrations of the clergy of former days. He said he found in the British Museum, twenty-five years ago, a very old tract, the title of which was "The funeral sermon of one David Morgan, rector of Llanymowddy—a funeral sermon for a dead body." The most singular thing was that the text was in English, although at that time there was no place in the world more Welsh than Dinas Mawddwy; the post did not get there only once in fourteen days. The rector was the veritable man that used to be chaffed for having prayed fourteen days for King William after Queen Victoria had ascended the throne. It was a most extraordinary thing that they should have this old David Morgan preaching a sermon in English. He was not at all particular as to his divinity; his sermon was full of anachronisms; he would illustrate the first century of the Christian era by pictures taken out of the eighteenth. The sermon began with these words: "Good people of Llanymawddy—my dear beloved brethren; we are met together here to-day for a great preachment—a preachment for a dead body—the body of good Squire Thomas, the squire of our parish. We did all love him, though he had scolded us shocking; but he is dead now, as dead as a door nail—yes, indeed—for I did see him with my own eyes before they did screw him up." He [the lecturer] should tell them, in order to state everything fair for poor David Morgan, that the Bible had been stolen. The sermon was this: "The text is taken from the four-and-twentieth chapter of the Prophet Maccabeus; well, indeed, I have forgotten the number of the verse, but I do know the words, I do know them in three languages. The Latin language—it is the language of all learned people; I do know them in the English language, it is the language of all genteel people; I do know 'Watch and pray;' I do know them in the Welsh language, of course it is the language of all vulgar people. Now I will stick to my text; I will, indeed. Our great grandfather Adam was a very good old man, and he was a very happy old man until he did marry a wife. He did live in the garden of Paradise. He did want for nothing there, for every thing did grow into his own hand; he did not want for neither a basin nor a spoon. Talk about gardens, there was a garden! The garden of Squire Thomas was nothing to it, and you know that has four walls, and it would take 20,000 of Squire Thomas's to make such a garden of Paradise. All sorts of trees did grow there; plum trees, gooseberry trees, strawberry trees, pear trees, and apple trees. Talk about apple dumplings, and you men of Llanymawddy, you do boast of your apple dumplings as if there were no apple dumplings in all the world like them; and, indeed, they are very good, only they want a little more sugar; but if you had apples from the garden of Paradise you would want no sugar at all. Well, I did tell you that he did marry a wife, our old grandfather; and oh! there was a beautiful woman; there was a fine figure; and there was hair, but it did grow all over her head and down her back; she did wear it in all sorts of shapes; she wore it like a tower of Babel on her head, and it was all her own hair. Still she was, I do tell you, the beautifullest of all women; but she was a very peculiar woman. She wanted to know everything—things she ought not to know; and, oh women of Llanymawddy! she did go about the garden, and what did happen unto her? She did get with the devil, and the devil did teach her all sorts of things, and he did persuade her to go and rob the orchard, and persuaded her to eat the apple, and she did eat the apple—every bit of it, pipkin and all; and then the devil did persuade her to put one in her pocket, and take it home for her husband, and he did obey his wife like a good man. Well, after this she did have two brave boys; but one was a bad boy—an unlawful rogue like his mother. He did concern with the devil, the devil did tempt him to kill his own brother, and that was the cause of all the mischief in the world. It did bring the lawyers into the world—all the constables into the world; all the excise men—people who go about prying for a drop of good liquor, but there was never a drop of good liquor ever afterwards. Mind you, do not go to the alehouse, it is very bad there; he did go and drink all day there, and come home at night and abuse his family shocking; he did kick his wife and abuse his children, like what you do, William Thomas, and the same as you did last Saturday night. Well, I did tell you about judgments coming into the world. Remember this, there will be one great day of judgment and the parson of Llanymawddy will be asked the question as to the sheeps in his possession. I will tell the truth, plump and plain. I will say there is no sheeps, you are all turned goats with shaggy hair all over, for you have never given me tithe wool from the very day I have been here till now."

Making and Managing a Cistern.

I have for many years made the supply of pure water a specialty, and I have not sunk a well during the past thirteen years, though I have supplied a large number of places with water in that period.

The cistern, when properly constructed, I consider the most reliable, and the most desirable, everything considered, of all means of supply. Certain precautions are, however, as necessary to observe, in the arrangements for obtaining the water, and for preserving it in purity, and to maintain in it a proper temperature, as other precautions are in obtaining water from other sources of supply.—Prominent among the former are the following:

Water should not be collected for drinking or culinary purposes from painted wooden or painted metal roofs, nor from such as are frequented by birds of any kind. I prefer, first, the slate roof, next the shingle. Water from a tile roof would, no doubt, be good, but there are none in use in my field of operation, which comprises nine States.

The foliage of trees should not be allowed to collect and remain in gutters of buildings from which the water is to be collected and used.

In localities in which the roof is liable to collect much dust, from excessively traveled earth, or even McAdam roads, the spoutings should be supplied with what I call a waste shoe, which is an adjustable section of the spouting near the ground, which is to be set during a drought, so that the first rain-fall succeeding a dusty period will waste, and not flow into the cistern.

I have, however, some among my numerous patrons, who may be considered rather fastidious, who will have the filter.

There are circumstances where the filter is necessary, and in such cases I supply them of my favorite kind—in fact, the only kind I build of late. I will briefly describe my filter: I build up in cement mortar a brick wall, of soft, or "salmon bricks," the width of a brick in thickness, which bisects the cistern, and is securely stayed in place. Neither face of the filter wall is plastered with cement, as the principle of the filter consists in causing all the water to flow through the brick wall, which it will do if the surface is that of a cross section of an ordinary cistern, with a rapidity equal to the amount drawn in a given time by an ordinary pump. A filter more perfect is not desirable.—*J. W., in Canada Farmer.*

OPINIONS OF DISTINGUISHED AMERICANS.
"No. 17 Arlington St., London, England. *Jan. 6*, 1870.
"I thank you for the opportunity of expressing my opinion of the great value of the 'NEW AMERICAN' and 'ANNUAL CYCLOPEDIA.' I own the work and have it with me here, and am in the habit of consulting it every day to my very great advantage. It is most admirable. J. L. MOTLEY,
"U. S. Minister to the Court of St. James."
"Philadelphia, Nov. 1, 1869.
I consider the New American Cyclopaedia, published by D. Appleton & Co., vastly superior for the American reader to any other Cyclopaedia now before the public. REV. BISHOP SIMPSON."
"Boston, Oct. 25, 1869.
I own Appletons' Cyclopaedia, and use it constantly. It should be in every library, public and private—I would say in every house, within reach of every family. The young should use it.
CHARLES SUMNER."
"I use the 'New American Cyclopaedia' every day, generally many times a day. I think it the best work of the kind in existence. It is singularly well suited to families. The children who grow up in a house where there is a copy of it within reach, can hardly escape becoming well-informed persons. I value it very highly, and am glad of this opportunity of testifying my gratitude.
JAMES PARTON."
"Tribune Office, N. Y. City, Oct. 30, 1869.
MY DEAR SIR: I have used the 'New American Cyclopaedia' since the first volume came into existence, and deem it the best work of the kind in print. Yours, &c., HORACE GREELEY."
"North Shore, S. I., N. Y., Oct. 19, 1869.
Appletons' Cyclopaedia is unquestionably the best popular manual of general reference for an American. GEORGE WILLIAM CURTIS.
"Washington, Nov. 12, 1869.
DEAR SIR: I quite agree with Mr. Curtis, that the 'New American Cyclopaedia' is 'the best manual of general reference for an American.' The annual continuations are also of great value.

WHEREAS, DEFAULT HAS been made in the payment of the money secured by a mortgage dated the 1st day of April, 1870, executed by John D. Deyo, widower, of the Town of Shawangunk, in the County of Ulster and State of New York, to Jane Smith, then the wife of Gardinier Smith, of the Town of Hurley, in the County and State aforesaid, to secure the payment of thirty-seven hundred dollars with interest thereon from the date thereof on the first day of April, 1872, and which mortgage was recorded in the Clerk's office of said County of Ulster in Book No. 110 of mortgages, on page 235, &c., on the 21st day of March, 1872, at 2½ o'clock P. M.

And whereas the said Jane Smith died intestate on the 11th day of January, 1874, leaving Cornelius C. Smith, John F. Smith, Richard C. Smith, Mary Dennis and Jeannette Van Wagenen, all above twenty-one years of age, as her only children and heirs-at-law, her surviving.

And whereas the said Cornelius C. Smith, John F. Smith, Richard C. Smith, Mary Dennis and Jeannette Van Wagenen, duly assigned and transferred all their right, title and interest in and to the said mortgage, and the bond accompanying the same, to their father, Gardinier Smith, by assignment dated the 21st day of January, 1874, duly recorded in the said Ulster County Clerk's office.

And whereas the amount claimed to be due upon said mortgage at the time of the first publication of this notice is the sum of three thousand nine hundred and ninety-one dollars and sixteen cents, to-wit: $3,700 of principal and $291.16 of interest, and which is the whole amount claimed to be unpaid on said mortgage.

Now, therefore, notice is hereby given that by virtue of the said mortgage and the power of sale therein contained and duly recorded as aforesaid and in pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described, at Public Auction at the front door of the Court House, in the City of Kingston, in the County of Ulster and State of New York, on the 30th day of May, 1874, at ten o'clock in the forenoon of that day.

The premises are described in the mortgage as follows: All that certain lot, piece or parcel of land situate in the Town of Shawangunk aforesaid, and is known and distinguished as being the same farm now owned and occupied by John D. Deyo, and is described in three lots or parcels of land as follows, namely: Beginning with the lot the said John D. Deyo purchased from Willet Leuderman and his wife Sarah, and at a corner on the west side of the highway leading to Kingston, then as the needle pointed in 1820 north fifty degrees twenty minutes, west twenty-eight chains fourteen links to a corner of a lot of land sold to Joseph Eckert, then along the same south forty-two and three-quarter degrees west four chains seventy-one links, then north forty-five degrees forty-five minutes west seven chains to the center of a highway leading to Katsonville; the two last courses are as the needle now points; then as it pointed in 1820 south twenty-nine degrees and forty-five minutes west seven chains and fifty links to a lot bought by Samuel Aldrich and others, then south fifty degrees twenty minutes east twenty-nine chains thirty links to a stone set by the westerly side of the aforesaid highway, then along the same to the beginning, containing thirty-six acres of land.

Also all that other lot purchased from Samuel Aldrich and others, and bounded as follows, namely: North by the above described lot, east by the public highway, south by lands of Peter Van Aken, west by the lands of Abram Vernooy, containing forty acres of land more or less.

Also all that other lot of land which is known as the same farm formerly owned by Jonathan Terwilliger, and is bounded as follows, namely: Beginning at a corner of land belonging to the heirs of William Rosekrans, from thence south seventy-five degrees and thirty minutes west two chains sixteen links to the line of the first described lot, then along the same north forty-seven degrees west ten chains thirty-one links, then north forty degrees and forty-five minutes east four chains and seventy-four links, then south thirty-two degrees forty-five minutes east eleven chains ninety-four links to the beginning, containing three acres and eight-tenths of an acre of land.

Dated February 23, 1874.

The Daily Freeman.

Kingston, Tuesday Morning, May 5.

The theological martinets are drilling their red breasted ranks for the trial of Professor Swing, for heresy, we see. Oh, give us something to wash the taste out of our mouths.

The Times of yesterday has one of its readable Paris letters in which strong ground is taken for cremation as a necessity for that city. The crowded state of the graveyards has rendered the soil non-absorbent and therefore reason suggests but one way of disposing of the dead with a decent thought for the health of the living. Sadly we ask ourselves, how long before the populous jam in Poughkeepsie will drive her to the same ultimate resort? Alas; don't hurry *too* much with that bridge.

The Big Bear is on his way to hob-nob for a few days with the Roaring Lion. His Ursa Majorship will growl low and sweetly as is possible to his gruff and brutal nature; and as for Leo Major, he will "roar you gently as a sucking dove." Will our poetic friend, Mr. Tennyson, be advised to get his soft pipes in tune a moment or two sooner than he did when the Bear's pet ursula came into the den? Why didn't the Emperor live long enough to play the role of grandfather around the princely fireside while in smoky London?

The Springfield Republican vows and vums that "The New York Times hits the nail pretty squarely on the head when it remarks that the Cincinnati Commercial is one of the best newspapers printed in this or any other country." Jes' so, and *we* hit another nail on the head when we say that it is sweet and pleasant to see the Times and the Republican agree about something. Can there have been a nice little symposium held somewhere at which the three editors-in-chief joined warm hands around the social board? Strictly temperance, of course. Tut, tut.

Our old *animus* Dr. Hiram Eddy of Jersey City is bound to have a free church—one of his own. He is sick of shams, shows and stuccoed pretence of aristocratic religion. We thought that of him. In the departed years when we used quite often to meet and talk with that tall, manly, clerical Vermonter he was seized and possessed of a heart in proper proportions to his massive frame; and when he preached he projected, as he was wont to say, "Something loving." Good weather and fair winds be with the new free church of Jersey City—pastor, Hiram Eddy.

The steamship L'Amerique has arrived safe at the port of Havre. Further investigation into her condition indicates with very disagreeable clearness that she was abandoned through panic. The capacity to be affected by sudden fright is not final evidence against the bravery of men, inasmuch as the best troops in the world have been scared on occasions into behaving like cowards and poltroons; but if there be a class of men whom the public is interested in trying to fortify beyond danger of panic it is the marine officials who hold thousands of lives in their hands every day.

The Latest Temperance Lecture.

There are a large number of people in every community who sneer and joke and laugh at Temperance advocates, as Don Quixotes fighting windmills. They talk about the pleasure that follows moderate drinking, of the good times they have, the jolly good fellows they are who surround the flowing bowl, and generally the use of liquor is treated as only a moderate evil at the worst. If only the proper amount of steam is carried, all goes well, they think and say; but the trouble is sometimes a big negro seems to jump on the safety-valve and the whole drinking community pushes ahead to the very edge of bursting, and at last we have an explosion that tears everything to pieces.

Only a week ago there stood on the Wallkill in the little village of Shawangunk a substantial brick building, of huge dimensions and most stable construction. Yet on Saturday last that building was torn to bits and death sent hurtling through the crowd of girls and men at work, by what is called a comparatively harmless liquor, in fact by some is considered not a liquor at all—Old English Ale and London Brown Stout. Young Condit and superintendent of the mill have been in the habit of having jolly good times over the social glass, getting themselves drunk over foaming beakers of ale, and everybody else that could be brought into their circle was made to drink, until the influence of that paper-mill on the morals of the place became fearful. Of course to a superintendent stupid with drink a great part of the time a leak in a boiler was a very trivial thing, and to his employer of still less consequence. So the boiler was neglected, and there are nineteen more orphaned children to join the long procession that rum daily parades as the result of its work.

This is a lesson the citizens of our city and county should heed. Right here in our own Ulster the work has been done; right at our own doors the destruction has come. If there had been no rum in Shawangunk, there would not have been desolation and mourning to-day in its homes.

Our Fire Worshippers.

Our country has been so long paraded before the country as the champion birthplace of horrors, that it is with great pleasure we call upon the world and the rest of mankind to see that we are reforming here at such a rapid and progressive rate that even our Aldermen have become devotees, and have set up a municipal religion. The prodigality and exuberant enthusiasm with which shrines to the new deity are being erected might by some be ascribed to the proverbial zeal of new converts, but there seems to be abundant reason for the opinion that the fervor of these devotees will continue till the end of the city's purse is reached. We have Jews and Gentiles, Protestants and Catholics, Mormons and Shakers in our midst, and all of them scatter their gifts upon their altars in generous measure and with constant devotion; but the new sect of Fire Worshippers fairly tumbles its offerings upon the shrines of its god, and lavishes its gifts so profusely that other sects can only silently wonder and admire.

One very obvious advantage results from having a municipal religion—it utilizes a great deal of property that otherwise might be considered comparatively useless. It is rather a matter of astonishment to us that there has not been so far any really positive effort to erect new and more costly sanctuaries to the new deity, and as taxpayers we may esteem ourselves a little fortunate in not being heavily taxed for new engine temples and synagogues adorned with all the expensive art of the most high-toned architect. That will probably come in time, just as soon perhaps as some of our Aldermen get the opportunity to select the most appropriate plans. But it of course would never do to let the deity be neglected while these buildings are lacking, so a comprehensive system of decoration has been inaugurated. So far the most ornate and expensive ornament is the new Wiltwyck Hose carriage, upon which $1,200 is to be expended. It is to be made so gorgeous that the most devoted Fire Worshipper will feel his deity worthily honored, and lest familiarity may breed contempt of the sacred vessels of the shrine the new carriage is to be kept in its temple and not taken therefrom under any pretext whatever except to parade at the grand Joss procession once each year. Other shrines are also being ornamented and decorated in like costly style, and the next time our devotees turn out they'll make their god's eyes fairly twinkle with delight at the fervor of his saints.

Seriously, haven't we had enough of this expensive tomfoolery about our fire department? About $2,000 of the people's money has been practically thrown away within a few months to buy gewgaws for firemen. If machines were made more useful by such expenditure and the extinguishment of fires made more sure, there might be some sense in it, but instead of being more serviceable they are really unfitted for the business for which in theory they are designed. In fact the firemen themselves couple their request for finery by promising to buy cheap machines with which to do the work, which is about as neat a bit of satire as they could well conceive. We think our taxpayers are heartily tired of this entire gewgaw business, and consider it an outrageous demand upon their property. Our firemen are not rendered a particle more efficient, while one expense of this kind breeds another until our fire department has become the most costly luxury of the municipality.

CURRENT TOPICS.

—A Roman sculptor is getting up a bust for the Pope. It will be put alongside the other Popes' busts.

—La Crosse has a young female child with two tongues. Poor La Crosse! It has Brick Pomeroy, too.

—Max Adeler has inscribed his new humorous book to that universal humorist, the intelligent compositor.

—A Minnesota man wants the English language abolished in the United States. Better hang some of its murderers.

—Nast has done one good thing—given up lecturing. We know of some others who could follow his example, to the relief of many people.

—Enterprising Little Rock papers now keep a surgeon to attend to the injuries of reporters, received while attending to their ordinary duties.

—The coming conflict seems to be between the advocates of cremation and aquation. The French seem to be believers in the latter practice.

—Between $30,000,000 and $40,000,000 are being paid in New York city in the shape of quarterly dividends on investments. This is the kind of inflation that ought to set business up.

—A Pittsburgh man sold his wife for five dollars and an old suit of clothes. She balanced accounts, however, before she left, by putting him in a condition to require fifty dollars' worth of work at the hands of a doctor.

—The Sandwich Islanders are firm believers in the power of prayer. They think Kamahameha and Lunalilo were prayed to death for various offences, and that now Kalakaua is going through the same mill on account of a choice assortment of transgressions.

—The World triumphantly proves that its correspondent was the only one able to procure reliable information regarding the Acheenese war. As two-thirds of its readers don't know or care a continental about the Acheenese war, this boast will fill them with heartfelt satisfaction.

MISCELLANEOUS ITEMS.

—It is a current report in Protestant Episcopal church circles in New York that an Assistant Bishop is likely to be elected at the next diocesan convention.

—The new church of Rev. Dr. S. H. Tyng, Jr., on Madison avenue, New York, had its first pew-letting Monday evening. The proceeds amounted to $37,000.

—Boston claims to have a diamond ring which once belonged to Sir Isaac Newton. That is nothing. St. Louis had the lead pencil with which Noah checked off the animals that went into the ark.—*St. Louis Democrat.*

—It is stated that there will be no attack on the administration by the inflation Senators, and that they have not yet agreed upon the character of a bill which shall provide for an increase of currency. A belief is prevalent that nothing more will be done at this session of Congress on financial matters.

—Aconite was put up by Weeks & Potter, wholesale druggists, of Boston, and labelled "picra," and sold to a Fall River druggist, who, supposing it to be picra, sold some without examination to Margaret Black. She took a dose and was nearly poisoned; but, on recovering, sued Andrew Weeks, who put up the drug originally, and has just obtained a verdict of $15,000.

—It is reported that Warden Chamberlain, of the Charlestown (Mass.) state prison is preparing temperance pledges for the convicts to sign when they leave the prison. In view of the developments recently made by John Short of evil fame, regarding the manufacture and sale of whiskey in Sing Sing prision, it might be well for Warden Hubbell to prepare pledges for convicts to sign when they enter the institution under his care.

—Manitobians complain that all the manure from the horse stables at the American Fort Pembina, where about 300 soldiers are stationed, besides the contents of sinks, ashboxes and other refuse, have been deposited on the ice of Red River, covering about an acre. As the water of the river is used by the Canadians below for domestic purposes, the approach of spring, when the ice and the refuse accumulations would break up, has been regarded by these people with dread and disgust. The officers in charge of the post should have sufficient regard for the feelings of their Dominion neighbors to make some other use of garbage.

—The Rochester Union is apprehensive that the canals are to be opened too early, and that a week's delay beyond the 5th inst. would have been advantageous to the state and to commerce. It says there is no considerable amount of merchandise awaiting transportation at any point as yet, navigation on the lakes being uncertain and perilous, while the work in progress at Tonawanda, Buffalo and other points will still be in a very incomplete state by the day named. Water is now being let into some of the levels, and it is believed that the canal will be filled with water its entire length on the 5th inst.

—The rapid growth of Bismarck, in Dakota Territory, is phenomenal in municipal life. Two years ago Indians roamed at will over the spot which it now occupies, and there was no settlement within 200 miles. Now it has over 300 taxpayers whose aggregate personal property has been assessed at $150,000, while trains run to Fargo and steamers pass regularly on the Missouri River, between there and Carroll and other points. The territory itself points with a natural pride to Bismarck as a sample of the wild and vigorous energy of the young west, and if it were not for the regular diurnal revolution of the pistol-barrel, it would be a delightful residence.

—The farmers along the line of the New York Central & Hudson River Railroad, with perhaps a couple of exceptions, and through the Mohawk valley, who sold land to the company for laying the additional tracks, acknowlede that they have been dealt with in the most satisfactory manner. They were allowed the most reasonable prices for their property, averaging $300, and in addition to this the company paid interest upon all purchases from the time of forming contracts to payment of property owners' claims. In many instances known to the writer land owners would place a price upon the land the company wished to purchase, much below the figure the company had contracted with adjoining neighbors for, but wishing to equalize and avoid dissatisfaction the company's officers would gratify the proprietor by increasing the value he placed upon his possessions. Throughout the entire valley the transactions of the company have been just and commendable.—*Albany Argus.*

REGULAR DISPATCHES TO DAILY FREEMAN

FOREIGN.

PORTUGAL.

Rejoicing Over the Capture of Bilbao.

LISBON, May 4.—Much joy was manifested by the citizens of Lisbon over the entry into Bilbao of the Spanish republican troops.—Crowds of people, headed by bands of music, paraded through the streets shouting, "Bilbao and liberty!"

GERMANY.

A Royal Betrothal.

BERLIN, May 4.—The Czar to-day received visits from Generals Von Moltke and Manteuffel. Prince Gortschakoff held a conference with Bismarck. The betrothal of the Russian Grand Duke Vladimar and Duchess Marie of Mecklenburg was promulgated yesterday.

SPAIN.

Various Military Movements.

MADRID, May 4.—The main body of Carlists is at Ripoll under Prince Alphonzo. Don Carlos is at Durango. Marshal Serrano is expected at Madrid on Saturday next. The inhabitants of Bilbao were without bread during the last week of the siege. The republican troops have been victorious in several skirmishes in Andalusia, Valencia and New Castile.

CHINA.

Riot in Shanghai.

SHANGHAI, China, May 4.—A serious riot occurred in the French settlement at this place. A mob of Chinese attacked the residents of that quarter and sacked and burned several of their buildings. The police, in order to quell the disturbance, fired into the rioters, killing several. Tranquility was restored, but an uneasy feeling prevails. The Chinese assign as the reason for their attack that the French were constructing a road which interfered with their cemetery. There was no disturbance in the English settlement.

GREAT BRITAIN.

Erie Affairs.

LONDON, May 4.—The Daily News suggests that a public meeting of holders of Erie shares be held and that Stephenson, one of the London managers appointed by President Watson, be given their proxies. It is announced today that the relinquishment of the position of Liberal whip by Sir Robert Peel will be only temporary.

THE FRANCO-GERMAN QUESTION.

LONDON, May 4.—In the House of Lords today Lord Russell, in view of the mutually embittered feelings of France and Germany toward each other, moved that copies of correspondence with those powers be called for and asked what the course of the British government would be in the event of a rupture between them.

Lord Derby believed that the peace of the immediate future was safe, and he trusted in the influence of time. England, he said, would do everything to maintain peace short of embroiling herself in the struggle, in which she is not nationally interested. She would regard absolute treaties as open questions and faithfully adhere to her engagements of late years.

Lord Russell withdrew the motion calling for papers in the Oregon boundary and Fenian raid questions. He said that the British government felt that the honor of England had been touched in the Washington treaty negotiations, the national character lowered and the national interests jeopardized. An opinion generally existed in favor of compensation to Canadian sufferers by Fenian raids, but he did not apprehend a repetition of these errors. He trusted that Great Britain would never seem afraid to risk anything in the assertion of her just rights.

WALTZ'S CASE.

A Memoir to be Filed by the Governor

ALBANY, May 4.—In view of certain circumstances connected with the examination of Waltz in reference to the question of his insanity the Governor will prepare a brief memoir of the case, to be filed in the executive chamber and probably given for publication at an early day.

DROWNED OUT DARKIES.

They Refuse to Work.

MEMPHIS, May 4.—Captain Mark Cheek, of the steamer George W. Cheek, confirms the reports of planters along the river above Napoleon that negroes who have been driven from their homes by the overflow refuse all offers of employment from planters who wish to hire them, saying the government is to furnish them rations and they do not want work.

THE NATIONAL CAPITAL.

Negroes in the Army.

WASHINGTON, May 4.—Sargent's bill relating to army distinction provides for repealing those sections of the act of 1866 which limit the service of colored men to a certain number of regiments, proposes to open all regimental and company organizations and all other branches of military service alike to all American citizens, regardless of race or color, makes it the duty of the Secretary of War to obliterate by transfers and assignments all such existing distinctions, and provides that the number of colored soldiers in the army shall by enlistments be made to correspond with the proportion of the colored population to the entire population of the United States.

TREMAIN'S BILL.

Tremain's bill for the distribution of the Geneva award is for the greater part similar to the bill reported from the House Committee on Judiciary, except that in section 12 it provides that if the gross amount of claims shall exceed the whole amount of the award and interest, the said claims shall be classified and paid in the manner following: First, claims by New York in full. Second, claims in favor of officers and seamen. Third, all other claimants shall be on an equality, and when judgments shall be rendered in favor of any such claimant such an amount only shall be paid them as bears the same proportion to the whole amount of such judgment as the balance remaining of said award of the payment of the first two classes of claims above-mentioned bears to the total amount of claims of the third class.

BROOKS AND BAXTER.

Arrest of Supreme Court Judges.

WASHINGTON, May 4.—The President to-day received a telegram from Brooks at Little Rock that the officer arresting the Supreme Court Judges stated he was acting by authority of Gov. Baxter. When asked what for, he replied that Baxter had reason to fear that the Supreme Court, if allowed to meet, might possibly pass on some question that might prejudice his case, now pending before the Attorney General of the United States, and that the court should not meet until the question who is Governor should be decided at Washington. Brooks requests that the President ask the commanding officer to demand the surrender of the arrested parties.

Judge Rose to-day received a telegram from Little Rock stating that Baxter had nothing to do with the arrest of the two judges in Argenta, on the side of the river opposite to Little Rock, and disavows all responsibility for it.

ANOTHER OCEAN DISASTER.

Thirty-Five Persons Killed.

HALIFAX, N. S., May 4.—A letter from St. Pierre Miquielon, dated the 20th ult. says a French vessel which had just arrived there passed a large steamer ten days previously, position not given, approached her as near as she could with safety and found she had abandoned the French troop ship Euridice from Brest bound to St. Pierre, put back to England dismasted to the deck and it was reported with thirty-five men killed.

METROPOLITAN NEWS.

The Sprague Trial.

NEW YORK, May 4.—In the Sprague trial in Brooklyn this afternoon defendant himself testified to the effect that not only his public but all his private business in Brooklyn had always, during his official career, been transacted by his deputy, M. T. Rodman, and that he had appointed Rodman as his deputy on the commendation of several of the Directors of the Trust Company.

A COUPLE OF WALKISTS.

Two prominent members of the Union Club start to-morrow to walk from a central point in this city to Jerome Park. The stakes are $3,000 a side. $20,000 to $40,000 are waged by club members on the result.

A SENSIBLE MAYOR.

Mayor Havemeyer has vetoed the dog-muzzling ordinance for informality.

RUMORS ABOUT ERIE.

The rumor afloat to-night that President Watson is to be removed is denied by Erie authorities, as no decisive action will be taken until the investigation by experts is concluded. James McHenry spent this evening with Commodore Vanderbilt.

PROFESSOR SWING.

His Trial Begun.

CHICAGO, May 4.—The trial of Professor David Swing before the Chicago Presbytery on a charge of heresy against him by Professor Patton began this morning.

UNITED STATES CONGRESS.

SENATE.

WASHINGTON, May 4.

The House having returned the bill appropriating $10,000 for the relief of persons suffering by the overflow of the Mississippi River, on motion of Pease of Mississippi the vote by which the bill was passed was reconsidered and that gentleman offered an amendment appropriating $250,000 instead of $90,000. Referred to the Committee on Appropriations.

The morning hour having expired the Senate resumed the consideration of the supplementary civil rights bill and Norwood of Georgia concluded his argument against its passage. He argued that the bill was unconstitutional in its provisions and read at length from judicial decisions in support of his position.

Mr. FENTON, in accordance with notice given by him last week, asked that the pending bill be laid aside that he might move to discharge the Committee of Commerce from the further consideration of the bill to regulate the service in the collection of customs at the various ports of entry in the United States and the disposition of fines, penalties and forfeitures incurred under laws relating to customs and for other purposes.

Mr. EDMUNDS objected.

Mr. FENTON said he would then discuss the bill under consideration (the supplementary civil rights bill), although that discussion might be somewhat novel. He then proceeded to speak at great length to the subject he had just endeavored to obtain action upon.

Mr. BOUTWELL submitted an amendment to the civil rights bill, providing that its provisions shall apply to schools and public institutions of learning or benevolence authorized by law, endowed by the United States or hereafter endowed by any state of the United States.

The Senate at 4:30 P. M. adjourned.

HOUSE.

BILLS INTRODUCED.

By Mr. TREMAIN, for the distribution of the Geneva award.

By Mr. BUCKNER of Missouri, requiring stock brokers to take out a license and pay $100 per year therefor and also pay one-sixth of one per cent. on the par value of securities bought or sold by them and reducing the tax on manufactured tobacco to ten cents per pound.

Mr. VANCE of North Carolina offered a resolution instructing the Committee of Ways and Means to inquire into the propriety of repealing the tax on leaf tobacco and of changing the character of fines and penalties for the violation of the internal revenue law. Adopted.

Mr. FOSTER, from the Committee of Ways and Means, presented a report on the Sanborn contracts. Ordered printed and recommitted, with leave to report at any time. The committee recommends the passage of a bill repealing the provisions of the act of May 8th, 1872, under which those contracts were made, and directs the revocation and annulment of all such contracts, and provides that the Court of Claims shall have no authority to consider or decide upon any claims for damages by reason of the discontinuance of such contracts or for any profits or percentages under them.

The Judiciary Committee was given leave to report at any time upon the bankrupt law. The rules were suspended and the Southern Claims Commission directed to report to Congress without delay all cases decided upon by it.

The Committee on States and Territories were given permission to report on the 21st instant a bill for the admission of New Mexico as a state.

Mr. TYNER of Indiana moved to suspend the rules and make in order an amendment to the Post Office appropriation bill, limiting the free delivery system to towns and cities where there is a population of 20,000 within the corporate limits, instead of being, as at present, within the limits of office delivery. Agreed to.

Mr. HARRIS of Massachusetts, from the Committee on Indian Affairs, reported a bill to authorize the Seneca nation of New York Indians to lease the lands within Cattaraugus and Allegheny reservations and confirming existing leases.

Mr. SOUTHARD of Ohio moved to suspend the rules and to adopt a resolution directing the Committee on Banking and Currency to report what legislation is necessary to secure a fair and equitable apportionment of the whole existing volume of national bank circulation among the several states and territories according to wealth, population and business interests. Agreed to.

The preamble to the resolution recites that there is an excess of circulation in the Eastern States of $70,690,046 and in the Middle States of $9,416,803, and a deficiency in the District of Columbia and the Southern and Southeastern States of $51,088,903; in the Western States of $21,423,811 and in the Pacific States and territories of $7,625,586.

Mr. KASSON of Iowa moved to suspend the rules and pass the bill to provide for a more equitable distribution of national bank currency. The motion to suspend the rules was, in the midst of much confusion, seconded—93 ayes to 54 nays.

Mr. KASSON then called for the yeas and nays on his motion. Pending that vote Ward of Illinois moved an adjournment.

Kasson's bill repeals the law which provides that no circulation shall be withdrawn until after the $54,000,000 shall have been taken up and it directs the Comptroller of the Currency to make a requisition on each of the national banks that now have an excess of currency, to withdraw and return such excess, and if they fail to do so the Comptroller is to sell enough of their bonds deposited in the Treasury to redeem such excess of circulation. The Comptroller is also to issue circulating notes to a corresponding amount to the banks in those states and territories that have less than their proportion of circulation under an apportionment made on the basis of population and wealth, provided that the whole amount of circulation so withdrawn and redeemed shall not exceed $25,000,000 and shall only be withdrawn as applications are received from time to time from banks in states having less than their apportionment.

The motion to adjourn was carried—yeas 105, nays 104.

Pending the announcement of the vote Mr. Field of Michigan introduced a bill to promote internal improvements by the issue of United States bonds and provide a sinking fund to facilitate the resumption of specie payments. This was referred to the Committee on Ways and Means.

The House then at 4:30 P. M. adjourned.

Stocks opened weak and and before first call the whole market declined ⅛@2½. C., C. & I. C. led the decline on the poor statement of Capron & Merram. During the last hour of the market the heavy prices made a further decline under free sales. The decline for the day ranged 1@3½ and closing quotations were generally the lowest made. The unsettled state of the market was caused by Wisconsin legislation, Treasury gold sales for May, House financial bills, talk about retiring legal tender and the rumored lease of the Atlantic and Great Western by the Erie. The activity was greatest in Western Union, Pacific Mail, Union Pacific, Wabash, St. Paul, Northwest, Rock Island, Lake Shore and C., C. & I. C.

GENERAL NEWS.

—A singular case of a double life was that of Col. William Phillips, President of the Alleghany Valley Railroad, and one of Pittsburg's millionaires, who died two weeks ago. He has always been reputed a bachelor, and his brother and sister have supposed themselves his heirs; but now the story is that he married a Mrs. Hemingway, long ago, and five children were born to to them, taking the name of Hemingway. Two sons survive and now lay claim to the whole estate.

—A Mississippi man, hearing a noise about his corn crib the other night, reconnoitered the premises with a shot-gun. He saw a human form on the end of a rail which was used to pry up the end of the crib; and in the opening thus made, were seated two other human forms quietly and leisurely pulling out corn.—Improving upon the old proverb relating to the killing of two birds with one stone, he lifted his gun and touched the trigger, and down came the man on the rail. Down also came the rail, and down came the logs of the crib, pinning the two men underneath to the earth. Seeing that the thieves were effectually quieted, this model old gentleman walked to the spot and found three dead negroes.

MOTT'S

LIVER PILLS!

An old physician once said that nearly all diseases originate from A DISEASED CONDITION OF THE LIVER, and this statement is true, although it may at first seem like an exaggeration. When the Liver is out of order the whole system and every organ and function suffer more or less in consequence. In the incipient stages of the disease a man

Does Not Know What Ails Him.

He is moody, restless and despondent; and that is the time to take a SIMPLE REMEDY that will restore him to health

IN A SINGLE DAY,

and prevent a whole train of diseases that may follow.

MOTT'S LIVER PILLS cure torpidity of the Liver.
MOTT'S LIVER PILLS give tone to the stomach.
MOTT'S LIVER PILLS cleanse the system of bile.
MOTT'S LIVER PILLS drive out febrile affections.
MOTT'S LIVER PILLS strengthen the whole system.

MOTT'S LIVER PILLS regulate the Liver, and are more reliable as a Liver medicine than any of the *mineral preparations* that DO MORE HARM THAN GOOD.

The Daily Freeman.

Kingston, Tuesday Morning, May 5.

The theological martinets are drilling their red breasted ranks for the trial of Professor Swing, for heresy, we see. Oh, give us something to wash the taste out of our mouths.

The Times of yesterday has one of its readable Paris letters in which strong ground is taken for cremation as a necessity for that city. The crowded state of the graveyards has rendered the soil non-absorbent and therefore reason suggests but one way of disposing of the dead with a decent thought for the health of the living. Sadly we ask ourselves, how long before the populous jam in Poughkeepsie will drive her to the same ultimate resort? Alas; don't hurry *too* much with that bridge.

The Big Bear is on his way to hob-nob for a few days with the Roaring Lion. His Ursa Majorship will growl low and sweetly as is possible to his gruff and brutal nature; and as for Leo Major, he will "roar you gently as a sucking dove." Will our poetic friend, Mr. Tennyson, be advised to get his soft pipes in tune a moment or two sooner than he did when the Bear's pet ursula came into the den? Why didn't the Emperor live long enough to play the role of grandfather around the princely fireside while in smoky London?

The Springfield Republican vows and vums that "The New York Times hits the nail pretty squarely on the head when it remarks that the Cincinnati Commercial is one of the best newspapers printed in this or any other country." Jes' so, and *we* hit another nail on the head when we say that it is sweet and pleasant to see the Times and the Republican agree about something. Can there have been a nice little symposium held somewhere at which the three editors-in-chief joined warm hands around the social board? Strictly temperance, of course. Tut, tut.

Our old *animus* Dr. Hiram Eddy of Jersey City is bound to have a free church—one of his own. He is sick of shams, shows and stuccoed pretence of aristocratic religion. We thought that of him. In the departed years when we used quite often to meet and talk with that tall, manly, clerical Vermonter he was seized and possessed of a heart in proper proportions to his massive frame; and when he preached he projected, as he was wont to say, "Something loving." Good weather and fair winds be with the new free church of Jersey City—pastor, Hiram Eddy.

The steamship L'Amerique has arrived safe at the port of Havre. Further investigation into her condition indicates with very disagreeable clearness that she was abandoned through panic. The capacity to be affected by sudden fright is not final evidence against the bravery of men, inasmuch as the best troops in the world have been scared on occasions into behaving like cowards and poltroons; but if there be a class of men whom the public is interested in trying to fortify beyond danger of panic it is the marine officials who hold thousands of lives in their hands every day.

The Latest Temperance Lecture.

There are a large number of people in every community who sneer and joke and laugh at Temperance advocates, as Don Quixotes fighting windmills. They talk about the pleasure that follows moderate drinking, of the good times they have, the jolly good fellows they are who surround the flowing bowl, and generally the use of liquor is treated as only a moderate evil at the worst. If only the proper amount of steam is carried, all goes well, they think and say; but the trouble is sometimes a big negro seems to jump on the safety-valve and the whole drinking community pushes ahead to the very edge of bursting, and at last we have an explosion that tears everything to pieces.

Only a week ago there stood on the Wallkill in the little village of Shawangunk a substantial brick building, of huge dimensions and most stable construction. Yet on Saturday last that building was torn to bits and death sent hurtling through the crowd of girls and men at work, by what is called a comparatively harmless liquor, in fact by some is considered not a liquor at all—Old English Ale and London Brown Stout. Young Condit and superintendent of the mill have been in the habit of having jolly good times over the social glass, getting themselves drunk over foaming beakers of ale, and everybody else that could be brought into their circle was made to drink, until the influence of that paper-mill on the morals of the place became fearful. Of course to a superintendent stupid with drink a great part of the time a leak in a boiler was a very trivial thing, and to his employer of still less consequence. So the boiler was neglected, and there are nineteen more orphaned children to join the long procession that rum daily parades as the result of its work.

This is a lesson the citizens of our city and county should heed. Right here in our own Ulster the work has been done; right at our own doors the destruction has come. If there had been no rum in Shawangunk, there would not have been desolation and mourning to-day in its homes.

Our Fire Worshippers.

Our country has been so long paraded before the country as the champion birthplace of horrors, that it is with great pleasure we call upon the world and the rest of mankind to see that we are reforming here at such a rapid and progressive rate that even our Aldermen have become devotees, and have set up a municipal religion. The prodigality and exuberant enthusiasm with which shrines to the new deity are being erected might by some be ascribed to the proverbial zeal of new converts, but there seems to be abundant reason for the opinion that the fervor of these devotees will continue till the end of the city's purse is reached. We have Jews and Gentiles, Protestants and Catholics, Mormons and Shakers in our midst, and all of them scatter their gifts upon their altars in generous measure and with constant devotion; but the new sect of Fire Worshippers fairly tumbles its offerings upon the shrines of its god, and lavishes its gifts so profusely that other sects can only silently wonder and admire.

One very obvious advantage results from having a municipal religion—it utilizes a great deal of property that otherwise might be considered comparatively useless. It is rather a matter of astonishment to us that there has not been so far any really positive effort to erect new and more costly sanctuaries to the new deity, and as taxpayers we may esteem ourselves a little fortunate in not being heavily taxed for new engine temples and synagogues adorned with all the expensive art of the most high-toned architect. That will probably come in time, just as soon perhaps as some of our Aldermen get the opportunity to select the most appropriate plans. But it of course would never do to let the deity be neglected while these buildings are lacking, so a comprehensive system of decoration has been inaugurated. So far the most ornate and expensive ornament is the new Wiltwyck Hose carriage, upon which $1,200 is to be expended. It is to be made so gorgeous that the most devoted Fire Worshipper will feel his deity worthily honored, and lest familiarity may breed contempt of the sacred vessels of the shrine the new carriage is to be kept in its temple and not taken therefrom under any pretext whatever except to parade at the grand Joss procession once each year. Other shrines are also being ornamented and decorated in like costly style, and the next time our devotees turn out they'll make their god's eyes fairly twinkle with delight at the fervor of his saints.

Seriously, haven't we had enough of this expensive tomfoolery about our fire department? About $2,000 of the people's money has been practically thrown away within a few months to buy gewgaws for firemen. If machines were made more useful by such expenditure and the extinguishment of fires made more sure, there might be some sense in it, but instead of being more serviceable they are really unfitted for the business for which in theory they are designed. In fact the firemen themselves couple their request for finery by promising to buy cheap machines with which to do the work, which is about as neat a bit of satire as they could well conceive. We think our taxpayers are heartily tired of this entire gewgaw business, and consider it an outrageous demand upon their property. Our firemen are not rendered a particle more efficient, while one expense of this kind breeds another until our fire department has become the most costly luxury of the municipality.

A belief is prevalent that nothing more will be done at this session of Congress on financial matters.

—Aconite was put up by Weeks & Potter, wholesale druggists, of Boston, and labelled "picra," and sold to a Fall River druggist, who, supposing it to be picra, sold some without examination to Margaret Black. She took a dose and was nearly poisoned; but, on recovering, sued Andrew Weeks, who put up the drug originally, and has just obtained a verdict of $15,000.

—It is reported that Warden Chamberlain, of the Charlestown (Mass.) state prison is preparing temperance pledges for the convicts to sign when they leave the prison. In view of the developments recently made by John Short of evil fame, regarding the manufacture and sale of whiskey in Sing Sing prision, it might be well for Warden Hubbell to prepare pledges for convicts to sign when they enter the institution under his care.

—Manitobians complain that all the manure from the horse stables at the American Fort Pembina, where about 300 soldiers are stationed, besides the contents of sinks, ashboxes and other refuse, have been deposited on the ice of Red River, covering about an acre. As the water of the river is used by the Canadians below for domestic purposes, the approach of spring, when the ice and the refuse accumulations would break up, has been regarded by these people with dread and disgust. The officers in charge of the post should have sufficient regard for the feelings of their Dominion neighbors to make some other use of garbage.

—The Rochester Union is apprehensive that the canals are to be opened too early, and that a week's delay beyond the 5th inst. would have been advantageous to the state and to commerce. It says there is no considerable amount of merchandise awaiting transportation at any point as yet, navigation on the lakes being uncertain and perilous, while the work in progress at Tonawanda, Buffalo and other points will still be in a very incomplete state by the day named. Water is now being let into some of the levels, and it is believed that the canal will be filled with water its entire length on the 5th inst.

—The rapid growth of Bismarck, in Dakota Territory, is phenomenal in municipal life. Two years ago Indians roamed at will over the spot which it now occupies, and there was no settlement within 200 miles. Now it has over 300 taxpayers whose aggregate personal property has been assessed at $150,000, while trains run to Fargo and steamers pass regularly on the Missouri River, between there and Carroll and other points. The territory itself points with a natural pride to Bismarck as a sample of the wild and vigorous energy of the young west, and if it were not for the regular diurnal revolution of the pistol-barrel, it would be a delightful residence.

—The farmers along the line of the New York Central & Hudson River Railroad, with perhaps a couple of exceptions, and through the Mohawk valley, who sold land to the company for laying the additional tracks, acknowledge that they have been dealt with in the most satisfactory manner. They were allowed the most reasonable prices for their property, averaging $300, and in addition to this the company paid interest upon all purchases from the time of forming contracts to payment of property owners' claims. In many instances known to the writer land owners would place a price upon the land the company wished to purchase, much below the figure the company had contracted with adjoining neighbors for, but wishing to equalize and avoid dissatisfaction the company's officers would gratify the proprietor by increasing the value he placed upon his possessions. Throughout the entire valley the transactions of the company have been just and commendable.—*Albany Argus.*

PORTUGAL.

Rejoicing Over the Capture of Bilbao.

LISBON, May 4.—Much joy was manifested by the citizens of Lisbon over the entry into Bilbao of the Spanish republican troops.—Crowds of people, headed by bands of music, paraded through the streets shouting, "Bilbao and liberty!"

GERMANY.

A Royal Betrothal.

BERLIN, May 4.—The Czar to-day received visits from Generals Von Moltke and Manteuffel. Prince Gortschakoff held a conference with Bismarck. The betrothal of the Russian Grand Duke Vladimar and Duchess Marie of Mecklenburg was promulgated yesterday.

SPAIN.

Various Military Movements.

MADRID, May 4.—The main body of Carlists is at Ripoll under Prince Alphonzo. Don Carlos is at Durango. Marshal Serrano is expected at Madrid on Saturday next. The inhabitants of Bilbao were without bread during the last week of the siege. The republican troops have been victorious in several skirmishes in Andalusia, Valencia and New Castile.

CHINA.

Riot in Shanghai.

SHANGHAI, China, May 4.—A serious riot occurred in the French settlement at this place. A mob of Chinese attacked the residents of that quarter and sacked and burned several of their buildings. The police, in order to quell the disturbance, fired into the rioters, killing several. Tranquility was restored, but an uneasy feeling prevails. The Chinese assign as the reason for their attack that the French were constructing a road which interfered with their cemetery. There was no disturbance in the English settlement.

GREAT BRITAIN.

Erie Affairs.

LONDON, May 4.—The Daily News suggests that a public meeting of holders of Erie shares be held and that Stephenson, one of the London managers appointed by President Watson, be given their proxies. It is announced to-day that the relinquishment of the position of Liberal whip by Sir Robert Peel will be only temporary.

THE FRANCO-GERMAN QUESTION.

LONDON, May 4.—In the House of Lords to-day Lord Russell, in view of the mutually embittered feelings of France and Germany toward each other, moved that copies of correspondence with those powers be called for and asked what the course of the British government would be in the event of a rupture between them.

Lord Derby believed that the peace of the immediate future was safe, and he trusted in the influence of time. England, he said, would do everything to maintain peace short of embroiling herself in the struggle, in which she is not nationally interested. She would regard absolute treaties as open questions and faithfully adhere to her engagements of late years.

Lord Russell withdrew the motion calling for papers in the Oregon boundary and Fenian raid questions. He said that the British government felt that the honor of England had been touched in the Washington treaty negotiations. the national character lowered and the national interests jeopardized. An opinion generally existed in favor of compensation to Canadian sufferers by Fenian raids, but he did not apprehend a repetition of these errors. He trusted that Great Britain would never seem afraid to risk anything in the assertion of her just rights.

WALTZ'S CASE.

A Memoir to be Filed by the Governor

ALBANY, May 4.—In view of certain circumstances connected with the examination of Waltz in reference to the question of his insanity the Governor will prepare a brief memoir of the case, to be filed in the executive chamber and probably given for publication at an early day.

DROWNED OUT DARKIES.

They Refuse to Work.

MEMPHIS, May 4.—Captain Mark Cheek, of the steamer George W. Cheek, confirms the reports of planters along the river above Napoleon that negroes who have been driven from their homes by the overflow refuse all offers of employment from planters who wish to hire them, saying the government is to furnish them rations and they do not want work.

THE NATIONAL CAPITAL.

Negroes in the Army.

WASHINGTON, May 4.—Sargent's bill relating to army distinction provides for repealing those sections of the act of 1866 which limit the service of colored men to a certain number of regiments, proposes to open all regimental and company organizations and all other branches of military service alike to all American citizens, regardless of race or color, makes it the duty of the Secretary of War to obliterate by transfers and assignments all such existing distinctions, and provides that the number of colored soldiers in the army shall by enlistments be made to correspond with the proportion of the colored population to the entire population of the United States.

TREMAIN'S BILL.

Tremain's bill for the distribution of the Geneva award is for the greater part similar to the bill reported from the House Committee on Judiciary, except that in section 12 it provides that if the gross amount of claims shall exceed the whole amount of the award and interest, the said claims shall be classified and paid in the manner following: First, claims by New York in full. Second, claims in favor of officers and seamen. Third, all other claimants shall be on an equality, and when judgments shall be rendered in favor of any such claimant such an amount only shall be paid them as bears the same proportion to the whole amount of such judgment as the balance remaining of said award of the payment of the first two classes of claims above-mentioned bears to the total amount of claims of the third class.

BROOKS AND BAXTER.

Arrest of Supreme Court Judges.

WASHINGTON, May 4.—The President to-day received a telegram from Brooks at Little Rock that the officer arresting the Supreme Court Judges stated he was acting by authority of Gov. Baxter. When asked what for, he replied that Baxter had reason to fear that the Supreme Court, if allowed to meet, might possibly pass on some question that might prejudice his case, now pending before the Attorney General of the United States, and that the court should not meet until the question who is Governor should be decided at Washington. Brooks requests that the President ask the commanding officer to demand the surrender of the arrested parties.

Judge Rose to-day received a telegram from Little Rock stating that Baxter had nothing to do with the arrest of the two judges in Argenta, on the side of the river opposite to Little Rock, and disavows all responsibility for it.

ANOTHER OCEAN DISASTER.

Thirty-Five Persons Killed.

HALIFAX, N. S., May 4.—A letter from St. Pierre Miquielon, dated the 20th ult. says a French vessel which had just arrived there passed a large steamer ten days previously, position not given, approached her as near as she could with safety and found she had abandoned the French troop ship Euridice from Brest bound to St. Pierre, put back to England dismasted to the deck and it was reported with thirty-five men killed.

METROPOLITAN NEWS.

The Sprague Trial.

NEW YORK, May 4.—In the Sprague trial in Brooklyn this afternoon defendant himself testified to the effect that not only his public but all his private business in Brooklyn had always, during his official career, been transacted by his deputy, M. T. Rodman, and that he had appointed Rodman as his deputy on the commendation of several of the Directors of the Trust Company.

A COUPLE OF WALKISTS.

Two prominent members of the Union Club start to-morrow to walk from a central point in this city to Jerome Park. The stakes are $3,000 a side. $20,000 to $40,000 are waged by club members on the result.

A SENSIBLE MAYOR.

Mayor Havemeyer has vetoed the dog-muzzling ordinance for informality.

RUMORS ABOUT ERIE.

The rumor afloat to-night that President Watson is to be removed is denied by Erie authorities, as no decisive action will be taken until the investigation by experts is concluded. James McHenry spent this evening with Commodore Vanderbilt.

PROFESSOR SWING.

His Trial Begun.

CHICAGO, May 4.—The trial of Professor David Swing before the Chicago Presbytery on a charge of heresy against him by Professor Patton began this morning.

UNITED STATES CONGRESS.

SENATE.

WASHINGTON, May 4.

The House having returned the bill appropriating $10,000 for the relief of persons suffering by the overflow of the Mississippi River, on motion of Pease of Mississippi the vote by which the bill was passed was reconsidered and that gentleman offered an amendment appropriating $250,000 instead of $90,000. Referred to the Committee on Appropriations.

The morning hour having expired the Senate resumed the consideration of the supplementary civil rights bill and Norwood of Georgia concluded his argument against its passage. He argued that the bill was unconstitutional in its provisions and read at length from judicial decisions in support of his position.

Mr. FENTON, in accordance with notice given by him last week, asked that the pending bill be laid aside that he might move to discharge the Committee of Commerce from the further consideration of the bill to regulate the service in the collection of customs at the various ports of entry in the United States and the disposition of fines, penalties and forfeitures incurred under laws relating to customs and for other purposes.

Mr. EDMUNDS objected.

Mr. FENTON said he would then discuss the bill under consideration (the supplementary civil rights bill), although that discussion might be somewhat novel. He then proceeded to speak at great length to the subject he had just endeavored to obtain action upon.

Mr. BOUTWELL submitted an amendment to the civil rights bill, providing that its provisions shall apply to schools and public institutions of learning or benevolence authorized by law, endowed by the United States or hereafter endowed by any state of the United States.

The Senate at 4:30 P. M. adjourned.

HOUSE.

BILLS INTRODUCED.

By Mr. TREMAIN, for the distribution of the Geneva award.

By Mr. BUCKNER of Missouri, requiring stock brokers to take out a license and pay $100 per year therefor and also pay one-sixth of one per cent. on the par value of securities bought or sold by them and reducing the tax on manufactured tobacco to ten cents per pound.

Mr. VANCE of North Carolina offered a resolution instructing the Committee of Ways and Means to inquire into the propriety of repealing the tax on leaf tobacco and of changing the character of fines and penalties for the violation of the internal revenue law. Adopted.

Mr. FOSTER, from the Committee of Ways and Means, presented a report on the Sanborn contracts. Ordered printed and recommitted, with leave to report at any time. The committee recommends the passage of a bill repealing the provisions of the act of May 8th, 1872, under which those contracts were made, and directs the revocation and annulment of all such contracts, and provides that the Court of Claims shall have no authority to consider or decide upon any claims for damages by reason of the discontinuance of such contracts or for any profits or percentages under them.

The Judiciary Committee was given leave to report at any time upon the bankrupt law. The rules were suspended and the Southern Claims Commission directed to report to Congress without delay all cases decided upon by it.

The Committee on States and Territories were given permission to report on the 21st instant a bill for the admission of New Mexico as a state.

Mr. TYNER of Indiana moved to suspend the rules and make in order an amendment to the Post Office appropriation bill, limiting the free delivery system to towns and cities where there is a population of 20,000 within the corporate limits, instead of being, as at present, within the limits of office delivery. Agreed to.

Mr. HARRIS of Massachusetts, from the Committee on Indian Affairs, reported a bill to authorize the Seneca nation of New York Indians to lease the lands within Cattaraugus and Allegheny reservations and confirming existing leases.

Mr. SOUTHARD of Ohio moved to suspend the rules and to adopt a resolution directing the Committee on Banking and Currency to report what legislation is necessary to secure a fair and equitable apportionment of the whole existing volume of national bank circulation among the several states and territories according to wealth, population and business interests. Agreed to.

The preamble to the resolution recites that there is an excess of circulation in the Eastern States of $70,690,046 and in the Middle States of $9,416,803, and a deficiency in the District of Columbia and the Southern and Southeastern States of $51,088,903; in the Western States of $21,423,811 and in the Pacific States and territories of $7,625,586.

Mr. KASSON of Iowa moved to suspend the rules and pass the bill to provide for a more equitable distribution of national bank currency. The motion to suspend the rules was, in the midst of much confusion, seconded—93 ayes to 54 nays.

Mr. KASSON then called for the yeas and nays on his motion. Pending that vote Ward of Illinois moved an adjournment.

Kasson's bill repeals the law which provides that no circulation shall be withdrawn until after the $54,000,000 shall have been taken up and it directs the Comptroller of the Currency to make a requisition on each of the national banks that now have an excess of currency, to withdraw and return such excess, and if they fail to do so the Comptroller is to sell enough of their bonds deposited in the Treasury to redeem such excess of circulation. The Comptroller is also to issue circulating notes to a corresponding amount to the banks in those states and territories that have less than their proportion of circulation under an apportionment made on the basis of population and wealth, provided that the whole amount of circulation so withdrawn and redeemed shall not exceed $25,000,000 and shall only be withdrawn as applications are received from time to time from banks in states having less than their apportionment.

The motion to adjourn was carried—yeas 105, nays 104.

Pending the announcement of the vote Mr. Field of Michigan introduced a bill to promote internal improvements by the issue of United States bonds and provide a sinking fund to facilitate the resumption of specie payments. This was referred to the Committee on Ways and Means.

The House then at 4:30 P. M. adjourned.

GENERAL NEWS.

—A singular case of a double life was that of Col. William Phillips, President of the Allegheny Valley Railroad, and one of Pittsburg's millionaires, who died two weeks ago. He has always been reputed a bachelor, and his brother and sister have supposed themselves his heirs; but now the story is that he married a Mrs. Hemingway, long ago, and five children were born to to them, taking the name of Hemingway. Two sons survive and now lay claim to the whole estate.

—A Mississippi man, hearing a noise about his corn crib the other night, reconnoitered the premises with a shot-gun. He saw a human form on the end of a rail which was used to pry up the end of the crib; and in the opening thus made, were seated two other human forms quietly and leisurely pulling out corn.—Improving upon the old proverb relating to the killing of two birds with one stone, he lifted his gun and touched the trigger, and down came the man on the rail. Down also came the rail, and down came the logs of the crib, pinning the two men underneath to the earth. Seeing that the thieves were effectually quieted, this model old gentleman walked to the spot and found three dead negroes.

LIVER PILLS!

An old physician once said that nearly all diseases originate from A DISEASED CONDITION OF THE LIVER, and this statement is true, although it may at first seem like an exaggeration. When the Liver is out of order the whole system and every organ and function suffer more or less in consequence. In the incipient stages of the disease a man

Does Not Know What Ails Him.

He is moody, restless and despondent; and that is the time to take a SIMPLE REMEDY that will restore him to health

IN A SINGLE DAY,

and prevent a whole train of diseases that may follow.

CITY NOTES.

—Over 15,000 tons of coal arrived at this port on Monday.

—The amount of sodding which is being done down town this spring is immense.

—The post office uptown is getting a new coat of paint.

—On Monday 118 canal boats laden with 15,000 tons of coal reached tide water through the Delaware & Hudson Canal.

—Although there was some very disagreeable weather during April, we May be happy yet.

—Counterfeit ten dollar notes on the National Bank of Syracuse are in circulation. Look out for them.

—Four freight cars arrived Monday for the R. & O. R. R. They are labeled "C" 13, 14, 18 and 20.

—Hallenbeck, the contractor for the City Hall, is fitting his timber on the Newark Lime & Cement Co.'s dock.

—J. H. Cordts & Co. started their brick-yards on Monday, and 110 men have gone to work.

—Wild ducks will now take a rest until Sep. 1st, as it is unlawful to shoot them until that date; however, wild ducks haven't been made very restless in these parts.

—About fifty uptown lassies have put on the first long dresses this spring, and their beaux hardly know how to act when with them.

—There is a bank president uptown who is so timid about loaning money he called a meeting of the board of directors the other day to discount a $100 note signed by a responsible party at that.

—On Monday the remark was make about the new barge lately arrived from New Baltimore on the Delaware & Hudson Canal Company, "She is painted a wery wisible green for a vessel."

—Lovely weather for the past two days and just as we were thinking it was to last an old croaker says, "We've got to have yit one snow storm, sonny"—and we're afraid he knows.

—Horver & Cousins of this city are painting the Mary Powell, and they are doing it in a manner that will reflect credit on themselves and the 'Star Winner of the Grapes' on the Hudson.

—The great alligator boot and shoemaker, Louie Eppenstein, has opened a branch manufactory in Billy Pendergast's building on The Strand. Louie has a contract for building a pair of shoes for a young lady and desires to purchase the gator we're interested in—but nixy.

Pigeons.

It is said large numbers of pigeons can be found in the woods of Shandaken and Denning lying dead on the ground, having been starved by the heavy snow that still covers the ground to the depth of several inches.

Variegated Scenery

It is rather a novel sight to see the mountains covered with snow while in the valleys the grass is green, and the air warm as on a May day. High Point is covered with snow from bottom to top and resembles a great iceberg.

Up In a Balloon.

The Rhinebeck Gazette says President Grant has accepted an invitation from W. B. Dinsmore, Esq., of Staatsburgh, to dine with him on the Fourth of July, and also that he will witness the balloon ascension at Rhinebeck. Big day for "Rhiney."—*Albany Express.*

Pigeons.

It is reported in Shandaken that the pigeons are leaving Michigan in large numbers, and probably will drop into the woods of that town or in Denning. The folks say there is plenty of shack on the ground for these birds to eat, which will be very likely to bring them down. We think, however, the snow will be just as great an inducement for them to stay away as the shack will be for them to come.

Another Civil Damage Case.

A Mrs. Gardiner, who resides at Olive City, is hunting around for a Justice of the Peace to give her a summons under the civil damage law, so that she can recover damages of Willett Bishop, who runs the hotel at that place. Mrs. Gardiner claims her husband got into a fight at that hotel a few nights ago, and came out of it with his ribs badly bruised. At latest reports she had been unable to find a Justice who would give her a summons.

State Canal Opening.

To-day, Tuesday, May 5th, is the one appointed by the Canal Commissioners for the opening of the state canals. The Northern Transportation Line started their first steamer of the season on Saturday last from Whitehall with a tow of seventeen boats for Canada. The weather was rather unfavorable for navi[illegible]ation, there being one of the most severe s[illegible]owstorms of the year prevailing at the time.

Rai[illegible]road Improvements.

The road-be[illegible] of the New York, Kingston & Syracuse Railro[illegible] is being put in very fine condition. All al[illegible] the route from this city to Pine Hill laborer[illegible] have been overhauling the track, putting in new ties, banking and generally filling it in with gravel. Already the effect is noticeable, [illegible] the trains can run at full speed with scarcely a jolt to remind the passenger that he is traveli[illegible]g a little slower than fifty miles an hour.

Eggs.

That hen at Creek Locks has been outdone by two in this city. Frank Anderson has a hen which laid an egg of the following dimensions: 6¼ by 8½ inches; and George Dressel is the proud proprietor of a pullet that set out to beat Frank's chicken and came within half an inch of doing it. Frank's hen is an old hand, and whenever she hears of any enterprising fowl giving an evidence of large egg-laying ability she goes to work and takes the conceit out of the other fowl by depositing a bigger egg.

THE SHAWANGUNK DISASTER.

Further Particulars.

The quiet village of Shawangunk since the accident wears a more Sabbatic aspect than is usual with it. Business has given way to the one absorbing topic which has taken the place of all others since it introduced itself amid clouds of steam, flying timbers and the mangled bodies of the dead and dying. The little knot of crape hanging dolefully from several door-knobs, the shaded windows and groups of workmen dressed in their best suits as though labor were over for the present, tell a story which, to him who sees them, is complete without words. At the scene of the disaster nothing was changed yesterday except in the single item of the removal of the dead and the injured. The mill itself is as total a wreck as can well be imagined. Nothing is left as it was before. Saving only parts of the foundation of the large building, not a square foot of the structure but bears testimony to the prodigious violence of the explosion. The ruins must be actually seen before any adequate notion can be formed of the power which spread destruction around its path so utter and so wide. Later observation has proved to us that our account of yesterday was toned below rather than above the truth. The exploded boiler drove its half—a fragment about ten feet in length by the same number of feet in diameter—through the brick wall which formed the north end of the mill and demolished the whole of it as thoroughly as a lengthened bombardment might have done.—The entire roofing of the mill has either been riddled to atoms or so moved from its place as to be useless. A splendid set of paper machinery occupying one side of the finishing room appears to be badly damaged on one end, though not otherwise. This was the spot where the two women were killed, and was the part of the room nearest the boiler. At the moment of the explosion the low roof above their heads was lifted and then fell in upon them, crushing them to death without warning. So completely buried were they by the *debris* that their bodies could be obtained only by continued digging. The corpse of one poor fellow was blown southward—opposite to the general direction of the destroying force—and lay unseen and quiet upon the roof of the building until Sunday morning, when it was accidentally discovered by a colored man who happened to be driving his oxen across the long bridge over the Wallkill which flows just at hand. Mr. Hill, who had gone to the mill to take the place of Foster, the regular manager of the boiler, was (as was plain on the finding of his body) just in the act of drawing on his overalls when the shock came. One of those events which seem providential in the retrospect is worth mention in connection with the disaster. As the half of the torn boiler fell into the road some six hundred feet from its former place in the mill, two vehicles, one of them containing ladies, were approaching the spot, and had come within a rod of it, when the huge monster rolled in their way. Had the case been slightly otherwise we should have had an additional and novel tragedy to record. There is but one opinion among the employees, most of whom our reporter conversed with, respecting the unlucky instrument of death; it had showed signs of weakness when it was first put up in the mill before the fire of one year and a half ago, and has been growing worse ever since. As we stated yesterday the boiler was not used to make steam but to digest the straw of which the paper was made, and contained also alkali and steam. It had been operated with a pressure of more than 125 pounds to the square inch, but at the time of the explosion the pressure was asserted to be not more than ninety pounds. Five minutes before the catastrophe the Superintendent, Mr. Tranter, had left the vicinity of the boiler, when he had been spoken to and advised to stop the machinery, as the boiler was dangerous. He replied that he would telegraph to New York and ask instructions. Before he could execute so humane a precaution the need of it had passed away. This exceedingly cautious man has proved himself invaluable to his employees by saving his own bones from compound fracture. Mr. Tranter is one of those men who take all sorts of responsibility except the sort which requires pluck, nerve and conscience; to that standard he does not measure up. This big man-slaughtering boiler revolved longitudinally upon hollow journals, making one revolution in about fifteen minutes. Of course as it turned, its entire contents, under enormous pressure, shifted from end to end. How much greater than ordinary strength a boiler requires which is to be handled in such a fashion must be clear to any mind possessing the least notion of mechanics. We have no disposition to be unjust to the Superintendent, or to the mill owners, yet a sense of the possibility of other manufacturers being culpably reckless in a like direction, obliges us to say that it seems to be well understood among the people of Shawangunk and the mill hands that Mr. Tranter is a good judge of the details of paper-making, but knows little of preparing the stock, of which an intelligent management of the fatal boiler was an essential part. How far he and the company are responsible for the disastrous results of his ignorance, future juries will probably determine. Not merely was the boiler unsafe, but the steam coils connected with it were notoriously so. They foamed so badly, together with the boiler itself, that by the testimony before the coroner's jury of the men who managed them, it was impossible to gauge the amount of steam and water they contained. In short, the whole thing was in bad order and chronically dangerous. One lesson of a reflective nature is in place here, and we proceed to draw it: Without intending any reflections at all ungenerous or unfair, we desire to say that the overseer of every factory in the world should be in the highest sense a gentleman. Not the mere pleasure of the laborers under his control demands this, but their safety and that of the valuable property placed in his charge requires it quite as emphatically. There is no proper place for a bully in human society, and if there were it is not where his stiff-neckedness and petty arrogance put the happiness and the lives of men and women, better than himself, in perpetual peril.

Meeting several of the prominent citizens of Shawangunk upon the street, among whom was Rev. Mr. Lippincott, the scholarly pastor of the Reformed Church there, our reporter sought their opinions upon the trouble of the hour. The answer came as with one voice, "Rum is at the bottom of it!" We are not surprised, for rum is at the bottom of most evils in some way or another; and in the words that caught our reporter's ear there were hints of stories which could be elaborated of rum's alliance with the calamity which has thrown its gloomy mantle over the hearts and the business of that pleasant village.

The inquest begun by Coroner Titus at the Orion House, at ten o'clock yesterday, elicited no new facts, but confirmed abundantly all we have thus far said. At two o'clock the inquest was adjourned to Friday next, and in accordance with the enterprise which our friends say marks The Freeman, we shall inform our readers of the result as soon as it is reached.

We hereby extend our thanks for courtesies rendered to The Freeman representative by the good people of Shawangunk generally, and especially by Station Agent Hasbrouck and H. W. Fowler.

Carpet Shaking.

There is one thing very noticeable in passing through the country at this time of the year, and that is that nearly all the folks are cleaning house; and remarkable though it may seem, whenever a man and woman are seen shaking a carpet the woman is on the windward side, and must take all the dust. Why is this? is it not a put up job on the woman?

Special Dispatch to The Freeman.

NO LICENSE IN OLIVE.

SHOKAN, May 4.

At the annual meeting to-day of the Excise Board, town of Olive, consisting of C. L. Howk, Supervisor, Dewitt C. Davis, S. K. Roosa and Lewis Barden, Justices, they nobly resolved to grant no licenses.

Special to The Freeman.

WALTZ'S LAST VICTIM!

Death of Officer Charles Ernst!

CATSKILL, May 4, 1874.

Ernst died this morning. His funeral will take place on Wednesday afternoon at two o'clock. The services will be conducted by the Odd Fellows. The Secretary of Catskill Lodge invites Kosciusko, Aretas and United German Lodges to attend.

Licenses in the Towns.

The Board of Excise of the town of New Paltz granted at their meeting on Monday the following licenses: Hotel keepers, William Steen and Abel Saxton, at $40 each. Grocery licenses, Dr. Charles W. Deyo and Bush & Bamly, at $30 each. A petition containing 504 names was presented to to the Board asking them not to grant any licenses.

In the town of Shawangunk the Board of Excise decided not to grant any licenses, for the reason that applicants were not of good moral character.

In the town of Plattekill no applications for license were made.

Runaway.

The Strand was thrown into a panic of short duration on Monday afternoon by a double runaway which fortunately resulted in injury to no person. A team of horses belonging to David Griffin, of Flatbush, was standing in front of Turck & Burhans' lumber yard with a boy of at least fourteen years old holding them, when a fright was given the horses by a locomotive on the N. Y., K. & S. Railroad, and away they went up Garden street, colliding with Sherwood Staples' horse and wagon standing in front of Marks Jacobs' tailor shop. Staples' horse becoming frightened plunged and got loose from its wagon by the breaking of the shafts, and taking to the sidewalk, on the eastern side of the street, rushed up it on a keen run, causing the people to scatter to the right and left out of harm's way. Griffin's team, after striking Staples' horse and wagon, struck a telegraph pole in front of John Schrieber's store and there they were caught, while Staples' horse continued to run up to and a little beyond Union avenue, where it was captured and stopped. Very little harm was done, but the number of hair-breadth escapes many. Had Griffin's team sheered in toward the sidewalk a short distance below where they did a large number of baby carriages on the walk would, in all probability, have been converted into toothpick timber. Ex-Harbor Master Suydam was relating some of his experience on a Texan cattle ranche to officer Tammany while the two were seated on the steps leading to the entrance to the Murray building, and eye witnesses to the scene declare that the manner in which Jack waltzed out of that horse's road would lead one to suppose he is a sylph—which he is not, and Robert slid across the street with remarkable velocity and kindly offered to save the lives of several ladies who were entirely out of harm's way even if they were in the street unprotected by a husband or a brother.

Shooting Case.

Mr. C. H. Beekman, a young chap who lives in Woodstock, while returning from making a visit to his lady love the other night, was waylaid and shot at, the bullet passing through the top of his hat. The way that youth slid out for home without stopping to ask questions was a caution. He resembled a streak passing through the air; there was a split in the atmosphere, a whiz, bang, and he was home. The assassin lay in an old blacksmith shop when he fired the shot, and the father of the young man offers $100 as a reward to whoever will capture the rascal, dead or alive. Who the would-be man-killer is no one can imagine, though some hint it is a put-up job on the youth, who is quite spoony towards a young lady in the place, and that some rival with blood in his left eye fired the pistol in the air just to scare him. It may be so, but how about the holes in the hat?

Barnum's Great Show Coming.

Mr. L. J Harper, one of the advance agents of the Prince of Showman, is in the city. From him we learn that the "Great Traveling World's Fair" with its famous talking machine, ferocious Fiji Cannibals, living Giraffes, monster Sea Lions, Mastodonica Rhinoceros, living phenomena, grand Polytechnic Institute of Life, Mimicking Automatons, Colossal Triple Circus troupe, 100,000 curiosities, 1,500 rare wild animals, birds, reptiles and marine monsters, and innumerable and unique attractions generally, will pitch its vast metropolis of wonder-seeming tents in this city on or about the 20th of May. Our readers will remain upon the tiptoe of pleasurable expectation until the arrival of this colossal exposition, which is many times the grandest and best traveling exhibition ever known.

Tows.

The following were yesterday's tows:

Steamers G. A. Hoyt and Oswego—Ice barge D. Terry, schooner E. G. Sawyer, boat D. C. French, light, plug Lady Loretta, boats Wilkins, Jacob Allen, P. D. Enderly, Lawrence, J. H. Lockwood, No. 507, 25 Del. & Hud. Canal Co.'s boats to New York.

Propeller Farrington—Boats Two Brothers, E. F. Burton to Newburgh, boat No. 403 to Wappingers.

Steamer Herald—R. R. No. 20 to Troy, boats No. 1,964, No. 1,770, Wm. Farmer, Mary of Cohoes, A. Best, Ernest, Geo. Day, James Keiler, barge A. N. Briggs to Albany, boats J. Larkin, Snyder to New Baltimore, ice barge Colgate to Catskill, boat Mary to Athens.

Propeller Columbia—Boats Mary Miller, E. Doremus, 6 Penn. Coal Co.'s boats, 5 Del. & Hud. Canal Co.'s boats to Hudson, 2 Del. & Hud. Canal Co.'s boats to Catskill.

Up tows from New York:

Boats Mohunk, G. A. Hall, B. H. Davidson, Mary Waters, ice barge Wallabout and Winfield, barge Kate Gokey, to Hudson; barge H. C. Rose from Manhattanville to Po'keepsie; barge Giant from Carmansville, schooner Empire, D. & H. C. Co.'s boats.

Embroidery.

Young ladies who are desirous of becoming experts with the needle, as we suppose all ladies are, will have an opportunity of receiving instruction from Mrs. John Weber, wife of the professor of German in School District No. 7, during the hours from two to four on three days in the week. Mrs. Weber is exceedingly expert with her needle and has embroidered some very beautiful things. As the lady has the happy faculty of imparting to others what she knows herself, the opportunity for ladies to learn to do their own embroidery is a rare one.

Smart Kittens.

A little daughter of Peter D. Holmes of the town of Paterson, has a smart kitten, which for variety, after catching all the rats and mice about the buildings, takes to the fields and catches rabbits, she having caught one a short time since nearly or quite as large as herself. Mr. Henry Baldwin of the same town, has another, who, determined not to be outdone by the little Miss Holmes' cat, cleans out the rats and mice and then goes to the woods and catches a fine plump partridge, and to show that she did it herself, brings it home before she entirely kills the bird. Both the above kittens will make smart "old cats" if they meet with no serious pull-backs.—*Carmel Monitor.*

Board of Excise.

The Board of Excise met at Fireman's Hall, on Fair street, Monday, when sixteen applications were made for license. Their names are as follows:

Charles Van Anden, North Front street.
Richard Broas, Wall street.
N. Smith Eckert, North Front street.
George Ewen, corner of Main and North Front streets.
Theron Johnston, Fair street.
Philip Schmidt, John street.
Edward Gaskill, Flatbush avenue.
Solomon Brown, Crown street.
Conrad Hull, Washington avenue.
Joseph Carkert, Main street.
Henry W. Winne, Main street.
Frank Newmayer, Ann street.
Joseph Gassen, corner of Union and Flatbush avenues.
Thomas Rigney, The Strand.
Thomas Folley, The Strand.
Mrs. Mary Becker, Main street.

A strong remonstrance was sent to the Board praying that they would not grant a license to Louis Appleton, or any other person occupying the Opera House, for the reasyn that "the assembling together of audiences of from 200 to 500 persons, most of them of the lowest characters, who get drunk in the said Opera House, and fight and yell, make disturbance to the annoyance of the inhabitants of that part of the city." The petition further says the people who pass on the street are liable to be insulted, and the place is a nuisance of the worst kind. This paper was signed by thirteen responsible men, some of the best men in the lower part of the city.

About 2 o'clock a party of ladies, numbering some eight or nine, headed by Mr. G. R. Adams of the lower part of the city, marched in the room and presented a petition signed by 1,000 or 2,000 persons, which petition read as follows:—"We, the undersigned, respectfully petition in the cause of God and humanity, that your honorable body will grant no licenses for the sale of intoxicating liquors except to druggists for mechanical and medicinal purposes." Mr. Adams made a short address, when they adjourned. Soon after another body of ladies, numbering some thirteen, nearly all of whom were from the upper part of the city, came before the Board, when their leader, Mrs. Teller, arose and in a clear and distinct voice addressed the Board as follows: "Our object in appearing before your Board to-day, gentlemen, is to request that no licenses be granted to any person in our city to sell any intoxicating beverages. We ask it, gentlemen, in the name of the widows and orphans and the moral and religious sentiment of the community, and hope you will refuse to grant any license. In all probability we might offer a petition of 5,000 names if necessary; we presented a petition to the Common Council of 1,003 names. We presume those gentlemen have done their duty?"

Mr. Hasbrouck arose and said: "Ladies, we are not granting any licenses to-day. We shall do all in our power to aid your worthy efforts, and we have already received some petitions from the lower part of the city. We shall endeavor to discharge our duties as Commissioners."

Another lady in a low and indistinct voice endeavored to address Mr. Burhans, but her remarks were not heard nor was her name known to the Commissioners present. The Commissioners were very courteous to the ladies, and the latter withdrew with considerable satisfaction to meet at the next sitting of the Board. The whole affair passed off quietly and pleasantly. The Board will meet again next week on Monday at the same place, and in the meantime the temperance people are at liberty to hand in their remonstrances against the granting of licenses to the applicants whose names are given at the commencement of this article.

Waltz's Body Sold to Physicians.

The body of the murderer Waltz was taken to the farm of his father, in Athens, after the execution, by undertaker Will Kortz, as we have stated. Various rumors were afloat on Saturday and Sunday that the body had been stolen, but were contradicted by a gentleman from Athens, who saw the body on Saturday on the farm and in the grave.

Teckla, his sister, says mass was said over the remains at Catskill yesterday, and that the body was afterward buried, and to-day the ground where the remains are interred is to be consecrated.

LATER.—We have since been informed that the above was true, *but that the body is not now on the farm.* This last report corroborates the story told on the Waltz farm, in the presence of the old man Waltz and his wife, yesterday, that the body had been sold for $75. Of course we cannot vouch for the correctness of the report, but it is universally believed.

A telegram from Catskill to this office, at 3 o'clock, says: "Waltz's body is missing.—Either stolen or sold. It is reported that old Waltz offered to sell it yesterday."—*Hudson Register.*

VICINITY.

—Newburgh's public pier is the only thing talked of down there.

—Balmville has a tree nineteen feet in circumference.

—Newburgh is going to indulge in a new directory.

—The people of Chatham who would attend the Reformed Church have an excuse, as all the pews are taken.

—Dr. Heston, of Highland, is in a very precarious condition. His disease appears to be of the nature of asthma.

—A Goshen man has gone into partnership with General Jud. Kilpatrick in a business enterprise in Chili.

—The reportorial inner consciousness was wonderfully drawn upon in describing the Waltz execution.

—Nearly every livery rig in Newburgh was in use on Sunday to convey visitors to Shawangunk to see the effects of the mill disaster.

—A sympathetic Trojan gave his dog chloroform to relieve pain while he cut his ears, but the dose was too large and the pains all went for naught.

—Among the items in the Supply bill will be found $2,500 for Frank Abbott and E. M. Madden, expenses in the contested seat case; $1,250 for each.

—A Rhinebeck man eats shad for breakfast the whole season round. He has to have his back shampooed with a brick before he can get his shirt off.

—Prof. De Garmo of Rhinebeck has been delivering one of his interesting philosophical lectures before the students of the Poughkeepsie Female Academy.

—The New Paltz Times observes: Men who are looking for office in this town, are now sitting on the fence. They would like to aid the temperance movement but are afraid of rum influence.

—Mr. Elias Brown, the enterprising comb manufacturer, of Wappingers Falls, has introduced a new feature in his business, viz., the manufacture of horn buttons in imitation shell for ladies' dresses. The imitation is so complete that none but a practiced eye could detect the difference between these and the real shell.

—The book-keeper of a well-known Troy firm has left town. His accounts ran short about $1,200 on investigation and his employers politely requested him to leave. The fact that the young man's cash book always evenly balanced led to the suspicion of something wrong. Cash accounts do not invariably come out straight. As a well-known business man remarked this morning, "When the cash account is always straight, then there's something wrong."

OUR FREE PARLIAMENT.

The Shawangunk Disaster.

MR. EDITOR:—We notice in your report of the Shawangunk boiler explosion that your reporter, in his pursuit of information regarding the cause of said explosion, interviewed Mr. T. H. Blackwell, the District Inspector of Boilers, and was told by Mr. B. that he had on one occasion some time since, at great personal inconvenience, and at the risk of his future happiness, gone on a Sunday to the paper mill in question for the purpose of inspecting the boiler, and to accommodate the mill owners had postponed his inspection to some more convenient season, as the proprietors feared their pipes might freeze. It appears to us that this was just the boiler that he ought to have inspected instead of making convenient postponements, and that he holds his appointment from the state in order to prevent as nearly as possible such careless disasters. We do not make this assertion because the boiler has exploded and killed several persons, but will show you that it was a dangerous concern and every precaution should have been taken to make it as safe as possible. According to your report this boiler was seven feet in diameter, giving 5,541 square inches area of head, and carrying 100 pounds of steam would cause a pressure on that head of 554,100 pounds or 277 tons. We do not know the thickness of the metal in these heads nor the strength of the shell that had to sustain this great longitudinal pressure. We know the shell must have been reduced in strength about two-sevenths by punching and riveting. The United States law prescribes that steam shall not be allowed for one than one-sixth of the tensile strength of the iron, and it is a custom which we think has been followed by state inspectors. It appears evident in this case that too much steam has been carried for the strength of the boiler, and we supposed it was the duty of state inspectors to prohibit such palpable violation of law. SAFETY.

☞ Special attention paid to the collection of accounts

Rondout, May 1st, 1874.

The attention of the public is respectfully invited to our Spring opening of Carpets, Dress Fabrics, General Dry Goods and Housekeeping Articles, and we confidently believe that a fair inspection will demonstrate our Stock to be second to none in this city.

These goods are of recent purchase, and our best judgment has been exerted in selection of styles, varieties and adaption to the needs of this vicinity.

Every advantage to be gained from buying for Cash, and in discounts and differences on time bills, has been realized by us on these invoices, and as the old axiom "Goods well bought are half sold" is still a truism, we count on an active and satisfactory trade.

The practice of our firm in regard to marking profits is generally known, but we reiterate it here, as aiming for a large trade at small advances and with quick returns, rather than the old style of full profits, moderate sales, extended credits, and old goods held for original prices.

In the line of Carpets, we deem ourselves specially fortunate in having made almost an entire clearance at our annual stock taking (March 1st), and thus are not encumbered with old patterns, or hampered by necessity of sale of last year's goods at actual loss, but can offer our friends entirely fresh goods at prices now current. These goods are not bought in lots at few places, but culled from every leading stock in New York City that holds out an attraction or makes an extra inducement on price; and for variety, desirableness and cheapness, they are unexcelled in this city.

Our entire stock on main floor is unusually complete and attractive, and it will afford us pleasure to show you these Goods at your earliest convenience.

CITY NOTES.

—Over 15,000 tons of coal arrived at this port on Monday.

—The amount of sodding which is being done down town this spring is immense.

—The post office uptown is getting a new coat of paint.

—On Monday 118 canal boats laden with 15,000 tons of coal reached tide water through the Delaware & Hudson Canal.

—Although there was some very disagreeable weather during April, we May be happy yet.

—Counterfeit ten dollar notes on the National Bank of Syracuse are in circulation. Look out for them.

—Four freight cars arrived Monday for the R. & O. R. R. They are labeled "C" 13, 14, 18 and 20.

—Hallenbeck, the contractor for the City Hall, is fitting his timber on the Newark Lime & Cement Co.'s dock.

—J. H. Cordts & Co. started their brickyards on Monday, and 110 men have gone to work.

—Wild ducks will now take a rest until Sep. 1st, as it is unlawful to shoot them until that date; however, wild ducks haven't been made very restless in these parts.

—About fifty uptown lassies have put on the first long dresses this spring, and their beaux hardly know how to act when with them.

—There is a bank president uptown who is so timid about loaning money he called a meeting of the board of directors the other day to discount a $100 note signed by a responsible party at that.

—On Monday the remark was make about the new barge lately arrived from New Baltimore on the Delaware & Hudson Canal Company, "She is painted a wery wisible green for a vessel."

—Lovely weather for the past two days and just as we were thinking it was to last an old croaker says, "We've got to have yit one snow storm, sonny"—and we're afraid he knows.

—Horver & Cousins of this city are painting the Mary Powell, and they are doing it in a manner that will reflect credit on themselves and the 'Star Winner of the Grapes' on the Hudson.

—The great alligator boot and shoemaker, Louie Epperstein, has opened a branch manufactory in Billy Pendergast's building on The Strand. Louie has a contract for building a pair of shoes for a young lady and desires to purchase the gator we're interested in—but nixy.

Pigeons.

It is said large numbers of pigeons can be found in the woods of Shandaken and Denning lying dead on the ground, having been starved by the heavy snow that still covers the ground to the depth of several inches.

Variegated Scenery

It is rather a novel sight to see the mountains covered with snow while in the valleys the grass is green, and the air warm as on a May day. High Point is covered with snow from bottom to top and resembles a great iceberg.

Up In a Balloon.

The Rhinebeck Gazette says President Grant has accepted an invitation from W. B. Dinsmore, Esq., of Staatsburgh, to dine with him on the Fourth of July, and also that he will witness the balloon ascension at Rhinebeck. Big day for "Rhiney."—*Albany Express.*

Pigeons.

It is reported in Shandaken that the pigeons are leaving Michigan in large numbers, and probably will drop into the woods of that town or in Denning. The folks say there is plenty of shack on the ground for these birds to eat, which will be very likely to bring them down. We think, however, the snow will be just as great an inducement for them to stay away as the shack will be for them to come.

Another Civil Damage Case.

A Mrs. Gardiner, who resides at Olive City, is hunting around for a Justice of the Peace to give her a summons under the civil damage law, so that she can recover damages of Willett Bishop, who runs the hotel at that place. Mrs. Gardiner claims her husband got into a fight at that hotel a few nights ago, and came out of it with his ribs badly bruised. At latest reports she had been unable to find a Justice who would give her a summons.

State Canal Opening.

To-day, Tuesday, May 5th, is the one appointed by the Canal Commissioners for the opening of the state canals. The Northern Transportation Line started their first steamer of the season on Saturday last from Whitehall with a tow of seventeen boats for Canada. The weather was rather unfavorable for navigation, there being one of the most severe snowstorms of the year prevailing at the time.

Railroad Improvements.

The road-be[illegible] of the New York, Kingston & Syracuse Railro[illegible] is being put in very fine condition. All al[illegible] the route from this city to Pine Hill laborer[illegible] have been overhauling the track, putting in new ties, banking and generally filling it in with gravel. Already the effect is noticeable, [illegible] the trains can run at full speed with scarcely a jolt to remind the passenger that he is traveli[illegible] a little slower than fifty miles an hour.

Eggs.

That hen at Creek Locks has been outdone by two in this city. Frank Anderson has a hen which laid an egg of the following dimensions: 6½ by 8½ inches; and George Dressel is the proud proprietor of a pullet that set out to beat Frank's chicken and came wit hin half an inch of doing it. Frank's hen is an old hand, and whenever she hears of any enterprising fowl giving an evidence of large egg-laying ability she goes to work and takes the conceit out of the other fowl by depositing a bigger egg.

THE SHAWANGUNK DISASTER.

Further Particulars.

The quiet village of Shawangunk since the accident wears a more Sabbatic aspect than is usual with it. Business has given way to the one absorbing topic which has taken the place of all others since it introduced itself amid clouds of steam, flying timbers and the mangled bodies of the dead and dying. The little knot of crape hanging dolefully from several door-knobs, the shaded windows and groups of workmen dressed in their best suits as though labor were over for the present, tell a story which, to him who sees them, is complete without words. At the scene of the disaster nothing was changed yesterday except in the single item of the removal of the dead and the injured. The mill itself is as total a wreck as can well be imagined. Nothing is left as it was before. Saving only parts of the foundation of the large building, not a square foot of the structure but bears testimony to the prodigious violence of the explosion. The ruins must be actually seen before any adequate notion can be formed of the power which spread destruction around its path so utter and so wide. Later observation has proved to us that our account of yesterday was toned below rather than above the truth. The exploded boiler drove its half—a fragment about ten feet in length by the same number of feet in diameter—through the brick wall which formed the north end of the mill and demolished the whole of it as thoroughly as a lengthened bombardment might have done.—The entire roofing of the mill has either been riddled to atoms or so moved from its place as to be useless. A splendid set of paper machinery occupying one side of the finishing room appears to be badly damaged on one end, though not otherwise. This was the spot where the two women were killed, and was the part of the room nearest the boiler. At the moment of the explosion the low roof above their heads was lifted and then fell in upon them, crushing them to death without warning. So completely buried were they by the *debris* that their bodies could be obtained only by continued digging. The corpse of one poor fellow was blown southward—opposite to the general direction of the destroying force—and lay unseen and quiet upon the roof of the building until Sunday morning, when it was accidentally discovered by a colored man who happened to be driving his oxen across the long bridge over the Wallkill which flows just at hand. Mr. Hill, who had gone to the mill to take the place of Foster, the regular manager of the boiler, was (as was plain on the finding of his body) just in the act of drawing on his overalls when the shock came. One of those events which seem providential in the retrospect is worth mention in connection with the disaster. As the half of the torn boiler fell into the road some six hundred feet from its former place in the mill, two vehicles, one of them containing ladies, were approaching the spot, and had come within a rod of it, when the huge monster rolled in their way. Had the case been slightly otherwise we should have had an additional and novel tragedy to record. There is but one opinion among the employees, most of whom our reporter conversed with, respecting the unlucky instrument of death; it had showed signs of weakness when it was first put up in the mill before the fire of one year and a half ago, and has been growing worse ever since. As we stated yesterday the boiler was not used to make steam but to digest the straw of which the paper was made, and contained also alkali and steam. It had been operated with a pressure of more than 125 pounds to the square inch, but at the time of the explosion the pressure was asserted to be not more than ninety pounds. Five minutes before the catastrophe the Superintendent, Mr. Tranter, had left the vicinity of the boiler, when he had been spoken to and advised to stop the machinery, as the boiler was dangerous. He replied that he would telegraph to New York and ask instructions. Before he could execute so humane a precaution the need of it had passed away. This exceedingly cautious man has proved himself invaluable to his employees by saving his own bones from compound fracture. Mr. Tranter is one of those men who take all sorts of responsibility except the sort which requires pluck, nerve and conscience; to that standard he does not measure up. This big man-slaughtering boiler revolved longitudinally upon hollow journals, making one revolution in about fifteen minutes. Of course as it turned, its entire contents, under enormous pressure, shifted from end to end. How much greater than ordinary strength a boiler requires which is to be handled in such a fashion must be clear to any mind possessing the least notion of mechanics. We have no disposition to be unjust to the Superintendent, or to the mill owners, yet a sense of the possibility of other manufacturers being culpably reckless in a like direction, obliges us to say that it seems to be well understood among the people of Shawangunk and the mill hands that Mr. Tranter is a good judge of the details of paper-making, but knows little of preparing the stock, of which an intelligent management of the fatal boiler was an essential part. How far he and the company are responsible for the disastrous results of his ignorance, future juries will probably determine. Not merely was the boiler unsafe, but the steam coils connected with it were notoriously so. They foamed so badly, together with the boiler itself, that by the testimony before the coroner's jury of the men who managed them, it was impossible to gauge the amount of steam and water they contained. In short, the whole thing was in bad order and chronically dangerous. One lesson of a reflective nature is in place here, and we proceed to draw it: Without intending any reflections at all ungenerous or unfair, we desire to say that the overseer of every factory in the world should be in the highest sense a gentleman. Not the mere pleasure of the laborers under his control demands this, but their safety and that of the valuable property placed in his charge requires it quite as emphatically. There is no proper place for a bully in human society, and if there were it is not where his stiff-neckedness and petty arrogance put the happiness and the lives of men and women, better than himself, in perpetual peril.

Meeting several of the prominent citizens of Shawangunk upon the street, among whom was Rev. Mr. Lippincott, the scholarly pastor of the Reformed Church there, our reporter sought their opinions upon the trouble of the hour. The answer came as with one voice, "Rum is at the bottom of it!" We are not surprised, for rum is at the bottom of most evils in some way or another; and in the words that caught our reporter's ear there were hints of stories which could be elaborated of rum's alliance with the calamity which has thrown its gloomy mantle over the hearts and the business of that pleasant village.

The inquest begun by Coroner Titus at the Orion House, at ten o'clock yesterday, elicited no new facts, but confirmed abundantly all we have thus far said. At two o'clock the inquest was adjourned to Friday next, and in accordance with the enterprise which our friends say marks The Freeman, we shall inform our readers of the result as soon as it is reached.

We hereby extend our thanks for courtesies rendered to The Freeman representative by the good people of Shawangunk generally, and especially by Station Agent Hasbrouck and H. W. Fowler.

Carpet Shaking.

There is one thing very noticeable in passing through the country at this time of the year, and that is that nearly all the folks are cleaning house; and remarkable though it may seem, whenever a man and woman are seen shaking a carpet the woman is on the windward side, and must take all the dust. Why is this? is it not a put up job on the woman?

Special Dispatch to The Freeman.

NO LICENSE IN OLIVE.

SHOKAN, May 4.

At the annual meeting to-day of the Excise Board, town of Olive, consisting of C. L. Howk, Supervisor, Dewitt C. Davis, S. K. Roosa and Lewis Barden, Justices, they nobly resolved to grant no licenses.

Special to The Freeman.

WALTZ'S LAST VICTIM!

Death of Officer Charles Ernst!

CATSKILL, May 4, 1874.

Ernst died this morning. His funeral will take place on Wednesday afternoon at two o'clock. The services will be conducted by the Odd Fellows. The Secretary of Catskill Lodge invites Kosciusko, Aretas and United German Lodges to attend.

Licenses in the Towns.

The Board of Excise of the town of New Paltz granted at their meeting on Monday the following licenses: Hotel keepers, William Steen and Abel Saxton, at $40 each. Grocery licenses, Dr. Charles W. Deyo and Bush & Bamly, at $30 each. A petition containing 504 names was presented to to the Board asking them not to grant any licenses.

In the town of Shawangunk the Board of Excise decided not to grant any licenses, for the reason that applicants were not of good moral character.

In the town of Plattekill no applications for license were made.

Runaway.

The Strand was thrown into a panic of short duration on Monday afternoon by a double runaway which fortunately resulted in injury to no person. A team of horses belonging to David Griffin, of Flatbush, was standing in front of Turck & Burhans' lumber yard with a boy of at least fourteen years old holding them, when a fright was given the horses by a locomotive on the N. Y., K. & S. Railroad, and away they went up Garden street, colliding with Sherwood Staples' horse and wagon standing in front of Marks Jacobs' tailor shop. Staples' horse becoming frightened plunged and got loose from its wagon by the breaking of the shafts, and taking to the sidewalk, on the eastern side of the street, rushed up it on a keen run, causing the people to scatter to the right and left out of harm's way. Griffin's team, after striking Staples' horse and wagon, struck a telegraph pole in front of John Schrieber's store and there they were caught, while Staples' horse continued to run up to and a little beyond Union avenue, where it was captured and stopped. Very little harm was done, but the number of hair-breadth escapes many. Had Griffin's team sheered in toward the sidewalk a short distance below where they did a large number of baby carriages on the walk would, in all probability, have been converted into toothpick timber. Ex-Harbor Master Suydam was relating some of his experience on a Texan cattle ranche to officer Tammany while the two were seated on the steps leading to the entrance to the Murray building, and eye witnesses to the scene declare that the manner in which Jack waltzed out of that horse's road would lead one to suppose he is a sylph—which he is not, and Robert slid across the street with remarkable velocity and kindly offered to save the lives of several ladies who were entirely out of harm's way even if they were in the street unprotected by a husband or a brother.

Shooting Case.

Mr. C. H. Beekman, a young chap who lives in Woodstock, while returning from making a visit to his lady love the other night, was waylaid and shot at, the bullet passing through the top of his hat. The way that youth slid out for home without stopping to ask questions was a caution. He resembled a streak passing through the air; there was a split in the atmosphere, a whiz, bang, and he was home. The assassin lay in an old blacksmith shop when he fired the shot, and the father of the young man offers $100 as a reward to whoever will capture the rascal, dead or alive. Who the would-be man-killer is no one can imagine, though some hint it is a put-up job on the youth, who is quite spoony towards a young lady in the place, and that some rival with blood in his left eye fired the pistol in the air just to scare him. It may be so, but how about the holes in the hat?

Barnum's Great Show Coming.

Mr. L. J Harper, one of the advance agents of the Prince of Showman, is in the city. From him we learn that the "Great Traveling World's Fair" with its famous talking machine, ferocious Fiji Cannibals, living Giraffes, monster Sea Lions, Mastodonica Rhinoceros, living phenomena, grand Polytechnic Institute of Life, Mimicking Automatons, Colossal Triple Circus troupe, 100,000 curiosities, 1,500 rare wild animals, birds, reptiles and marine monsters, and innumerable and unique attractions generally, will pitch its vast metropolis of wonder-seeming tents in this city on or about the 20th of May. Our readers will remain upon the tiptoe of pleasurable expectation until the arrival of this colossal exposition, which is many times the grandest and best traveling exhibition ever known.

Tows.

The following were yesterday's tows:

Steamers G. A. Hoyt and Oswego—Ice barge D. Terry, schooner E. G. Sawyer, boat D. C. French, light, plug Lady Loretta, boats Wilkins, Jacob Allen, P. D. Enderly, Lawrence, J. H. Lockwood, No. 507, 25 Del. & Hud. Canal Co.'s boats to New York.

Propeller Farrington—Boats Two Brothers, E. F. Burton to Newburgh, boat No. 403 to Wappingers.

Steamer Herald—R. R. No. 20 to Troy, boats No. 1,964, No. 1,770, Wm. Farmer, Mary of Cohoes, A. Best, Ernest, Geo. Day, James Keiler, barge A. N. Briggs to Albany, boats J. Larkin, Snyder to New Baltimore, ice barge Colgate to Catskill, boat Mary to Athens.

Propeller Columbia—Boats Mary Miller, E. Doremus, 6 Penn. Coal Co.'s boats, 5 Del. & Hud. Canal Co.'s boats to Hudson, 2 Del. & Hud. Canal Co.'s boats to Catskill.

Up tows from New York:

Boats Mohunk, G. A. Hall, B. H. Davidson, Mary Waters, ice barge Wallabout and Winfield, barge Kate Gokey, to Hudson; barge H. C. Rose from Manhattanville to Po'keepsie; barge Giant from Carmansville, schooner Empire, D. & H. C. Co.'s boats.

Embroidery.

Young ladies who are desirous of becoming experts with the needle, as we suppose all ladies are, will have an opportunity of receiving instruction from Mrs. John Weber, wife of the professor of German in School District No. 7, during the hours from two to four on three days in the week. Mrs. Weber is exceedingly expert with her needle and has embroidered some very beautiful things. As the lady has the happy faculty of imparting to others what she knows herself, the opportunity for ladies to learn to do their own embroidery is a rare one.

Smart Kittens.

A little daughter of Peter D. Holmes of the town of Paterson, has a smart kitten, which for variety, after catching all the rats and mice about the buildings, takes to the fields and catches rabbits, she having caught one a short time since nearly or quite as large as herself. Mr. Henry Baldwin of the same town, has another, who, determined not to be outdone by the little Miss Holmes' cat, cleans out the rats and mice and then goes to the woods and catches a fine plump partridge, and to show that she did it herself, brings it home before she entirely kills the bird. Both the above kittens will make smart "old cats" if they meet with no serious pull-backs.—*Carmel Monitor.*

Board of Excise.

The Board of Excise met at Fireman's Hall, on Fair street, Monday, when sixteen applications were made for license. Their names are as follows:

Charles Van Anden, North Front street.
Richard Broas, Wall street.
N. Smith Eckert, North Front street.
George Ewen, corner of Main and North Front streets.
Theron Johnston, Fair street.
Philip Schmidt, John street.
Edward Gaskill, Flatbush avenue.
Solomon Brown, Crown street.
Conrad Hull, Washington avenue.
Joseph Carkert, Main street.
Henry W. Winne, Main street.
Frank Newmayer, Ann street.
Joseph Gassen, corner of Union and Flatbush avenues.
Thomas Rigney, The Strand.
Thomas Folley, The Strand.
Mrs. Mary Becker, Main street.

A strong remonstrance was sent to the Board praying that they would not grant a license to Louis Appleton, or any other person occupying the Opera House, for the reasyn that "the assembling together of audiences of from 200 to 500 persons, most of them of the lowest characters, who get drunk in the said Opera House, and fight and yell, make disturbance to the annoyance of the inhabitants of that part of the city." The petition further says the people who pass on the street are liable to be insulted, and the place is a nuisance of the worst kind. This paper was signed by thirteen responsible men, some of the best men in the lower part of the city.

About 2 o'clock a party of ladies, number ing some eight or nine, headed by Mr. G. R. Adams of the lower part of the city, marched in the room and presented a petition signed by 1,000 or 2,000 persons, which petition read as follows:—"We, the undersigned, respectfully petition in the cause of God and humanity, that your honorable body will grant no licenses for the sale of intoxicating liquors except to druggists for mechanical and medicinal purposes." Mr. Adams made a short address, when they adjourned. Soon after another body of ladies, numbering some thirteen, nearly all of whom were from the upper part of the city, came before the Board, when their leader, Mrs. Teller, arose and in a clear and distinct voice addressed the Board as follows: "Our object in appearing before your Board to-day, gentlemen, is to request that no licenses be granted to any person in our city to sell any intoxicating beverages. We ask it, gentlemen, in the name of the widows and orphans and the moral and religious sentiment of the community, and hope you will refuse to grant any license. In all probability we might offer a petition of 5,000 names if necessary; we presented a petition to the Common Council of 1,003 names. We presume those gentlemen have done their duty?"

Mr. Hasbrouck arose and said: "Ladies, we are not granting any licenses to-day. We shall do all in our power to aid your worthy efforts, and we have already received some petitions from the lower part of the city. We shall endeavor to discharge our duties as Commissioners."

Another lady in a low and indistinct voice endeavored to address Mr. Burhans, but her remarks were not heard nor was her name known to the Commissioners present. The Commissioners were very courteous to the ladies, and the latter withdrew with considerable satisfaction to meet at the next sitting of the Board. The whole affair passed off quietly and pleasantly. The Board will meet again next week on Monday at the same place, and in the meantime the temperance people are at liberty to hand in their remonstrances against the granting of licenses to the applicants whose names are given at the commencement of this article.

Waltz's Body Sold to Physicians.

The body of the murderer Waltz was taken to the farm of his father, in Athens, after the execution, by undertaker Will Kortz, as we have stated. Various rumors were afloat on Saturday and Sunday that the body had been stolen, but were contradicted by a gentleman from Athens, who saw the body on Saturday on the farm and in the grave.

Teckla, his sister, says mass was said over the remains at Catskill yesterday, and that the body was afterward buried, and to-day the ground where the remains are interred is to be consecrated.

LATER.—We have since been informed that the above was true, *but that the body is not now on the farm.* This last report corroborates the story told on the Waltz farm, in the presence of the old man Waltz and his wife, yesterday, that the body had been sold for $75. Of course we cannot vouch for the correctness of the report, but it is universally believed.

A telegram from Catskill to this office, at 3 o'clock, says: "Waltz's body is missing.—Either stolen or sold. It is reported that old Waltz offered to sell it yesterday."—*Hudson Register.*

VICINITY.

—Newburgh's public pier is the only thing talked of down there.

—Balmville has a tree nineteen feet in circumference.

—Newburgh is going to indulge in a new directory.

—The people of Chatham who would attend the Reformed Church have an excuse, as all the pews are taken.

—Dr. Heston, of Highland, is in a very precarious condition. His disease appears to be of the nature of asthma.

—A Goshen man has gone into partnership with General Jud. Kilpatrick in a business enterprise in Chili.

—The reportorial inner consciousness was wonderfully drawn upon in describing the Waltz execution.

—Nearly every livery rig in Newburgh was in use on Sunday to convey visitors to Shawangunk to see the effects of the mill disaster.

—A sympathetic Trojan gave his dog chloroform to relieve pain while he cut his ears, but the dose was too large and the pains all went for naught.

—Among the items in the Supply bill will be found $2,500 for Frank Abbott and E. M. Madden, expenses in the contested seat case; $1,250 for each.

—A Rhinebeck man eats shad for breakfast the whole season round. He has to have his back shampooed with a brick before he can get his shirt off.

—Prof. De Garmo of Rhinebeck has been delivering one of his interesting philosophical lectures before the students of the Poughkeepsie Female Academy.

—The New Paltz Times observes: Men who are looking for office in this town, are now sitting on the fence. They would like to aid the temperance movement but are afraid of rum influence.

—Mr. Elias Brown, the enterprising comb manufacturer, of Wappingers Falls, has introduced a new feature in his business, viz., the manufacture of horn buttons in imitation shell for ladies' dresses. The imitation is so complete that none but a practiced eye could detect the difference between these and the real shell.

—The book-keeper of a well-known Troy firm has left town. His accounts ran short about $1,200 on investigation and his employers politely requested him to leave. The fact that the young man's cash book always evenly balanced led to the suspicion of something wrong. Cash accounts do not invariably come out straight. As a well-known business man remarked this morning, "When the cash account is always straight, then there's something wrong."

OUR FREE PARLIAMENT.

The Shawangunk Disaster.

MR. EDITOR:—We notice in your report of the Shawangunk boiler explosion that your reporter, in his pursuit of information regarding the cause of said explosion, interviewed Mr. T. H. Blackwell, the District Inspector of Boilers, and was told by Mr. B. that he had on one occasion some time since, at great personal inconvenience, and at the risk of his future happiness, gone on a Sunday to the paper mill in question for the purpose of inspecting the boiler, and to accommodate the mill owners had postponed his inspection to some more convenient season, as the proprietors feared their pipes might freeze. It appears to us that this was just the boiler that he ought to have inspected instead of making convenient postponements, and that he holds his appointment from the state in order to prevent as nearly as possible such careless disasters. We do not make this assertion because the boiler has exploded and killed several persons, but will show you that it was a dangerous concern and every precaution should have been taken to make it as safe as possible. According to your report this boiler was seven feet in diameter, giving 5,541 square inches area of head, and carrying 100 pounds of steam would cause a pressure on that head of 554,100 pounds or 277 tons. We do not know the thickness of the metal in these heads nor the strength of the shell that had to sustain this great longitudinal pressure. We know the shell must have been reduced in strength about two-sevenths by punching and riveting. The United States law prescribes that steam shall not be allowed for one than one-sixth of the tensile strength of the iron, and it is a custom which we think has been followed by state inspectors. It appears evident in this case that too much steam has been carried for the strength of the boiler, and we supposed it was the duty of state inspectors to prohibit such palpable violation of law.

☞ Special attention paid to the collection of accounts

Rondout, May 1st, 1874.

The attention of the public is respectfully invited to our Spring opening of Carpets, Dress Fabrics, General Dry Goods and Housekeeping Articles, and we confidently believe that a fair inspection will demonstrate our Stock to be second to none in this city.

These goods are of recent purchase, and our best judgment has been exerted in selection of styles, varieties and adaption to the needs of this vicinity.

Every advantage to be gained from buying for Cash, and in discounts and differences on time bills, has been realized by us on these invoices, and as the old axiom "Goods well bought are half sold" is still a truism, we count on an active and satisfactory trade.

The practice of our firm in regard to marking profits is generally known, but we reiterate it here, as aiming for a large trade at small advances and with quick returns, rather than the old style of full profits. moderate sales, extended credits, and old goods held for original prices.

In the line of Carpets, we deem ourselves specially fortunate in having made almost an entire clearance at our annual stock taking (March 1st), and thus are not encumbered with old patterns, or hampered by necessity of sale of last year's goods at actual loss, but can offer our friends entirely fresh goods at prices now current. These goods are not bought in lots at few places, but culled from every leading stock in New York City that holds out an attraction or makes an extra inducement on price; and for variety, desirableness and cheapness, they are unexcelled in this city.

Our entire stock on main floor is unusually complete and attractive, and it will afford us pleasure to show you these Goods at your earliest convenience.

VINEGAR BITTERS

VEGETABLE — FREE FROM — PURELY — CALIFORNIA — ALCOHOL — DR. WALKER'S — EUREKA

VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs in Bilious Diseases

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

THE NEW YORK TIMES.

Daily, Semi-Weekly, and Weekly.

THE NEW YORK DAILY TIMES,

IS THE

ONLY REPUBLICAN JOURNAL IN THE CITY OF NEW YORK.

The high character which THE DAILY TIMES has borne in the past is a sufficient guarantee for its conduct in the future. It will continue to advocate the cause of the public, without reference to the interests of individuals. No expense will be spared in the maintenance of its position as the foremost of American Journals. It is the best daily family newspaper in the country. It has the latest news, the best foreign correspondence, and the largest staff of home correspondents. All objectionable news and advertisements are rigidly excluded.

TERMS TO MAIL SUBSCRIBERS.

THE DAILY TIMES, per annum, including the Sunday Edition.....$12
THE DAILY TIMES, per annum, exclusive of the Sunday Edition.....10
The Sunday Edition, per annum.....2

Semi-Weekly Times.

THE SEMI-WEEKLY TIMES contains a very careful epitome of our foreign and home correspondence; an interesting selection of current literature from the best foreign and domestic magazines; a choice variety of agricultural matter, and the very latest news up to the hour of going to press. TERMS—$3 per annum. Club rates—Two copies, one year, $5; Ten copies, one year, $25, and one extra copy free. New names may be added to clubs at any time during the year, at club rates.

The Weekly Times.

THE WEEKLY TIMES is undoubtedly the best paper for the farmer, for the mechanic, and for all who live in localities which are served only by weekly mails. It contains, in addition to editorial comments on current topics, an excellent condensation of the news of the week; the most important events, both home and foreign, are reviewed at length, and a large quantity of matter is given especially interesting to the farmer and mechanic. Its market reports are the fullest and most accurate in the country. TERMS—$2 per annum.

Club rates of THE WEEKLY—all to one Post Office address—Five copies, per annum, $7 50; Ten copies, per annum, $12 50; Twenty copies, per annum, $22; Thirty copies, per annum, $30, and one extra copy to each club. For every club of fifty, one copy of THE SEMI-WEEKLY TIMES to the getter-up of the club.

When the names of subscribers are required to be written upon each paper of the club at one Post Office address, ten cents for each copy additional to the above rates.

THE SEMI-WEEKLY and WEEKLY mailed one year to clergymen at the lowest rates.

These prices are invariable. Remit in drafts on New York or Post Office Money Orders, if possible, and where neither of these can be procured send money in a *registered* letter.

VINEGAR BITTERS

PURELY VEGETABLE FREE FROM ALCOHOL
DR. WALKER'S CALIFORNIA
EUREKA
VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked. "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs in Bilious Diseases

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelminitics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

BEAUTIFULLY ILLUSTRTED.

The SCIENTIFIC AMERICAN, now in its 29th year, enjoys the widest circulation of any weekly newspaper of the kind in the world. A new volume commenced January 3, 1874.

Its contents embrace the latest and most interesting information pertaining to the Industrial Mechanical and Scientific Progress of the World; Descriptions, with Beautiful Engravings, of New Inventions, New Implements, New Processes, and Improved Industries of all kinds; Useful Notes, Recipes, Suggestions and Advice, by Practical Writers, for Workmen and Employers, in all the various arts.

The SCIENTIFIC AMERICAN is the cheapest and best illustrated weekly paper published.—Every number contains from 10 to 15 original engravings of new machinery and novel inventions.

ENGRAVINGS, illustrating Improvements, Discoveries, and Important Works, pertaining to Civil and Mechanical Engineering, Milling, Mining and Metallurgy; Records of the latest progress in the Applications of Steam, Steam Engineering, Railways, Ship-Building, Navigation, Telegraphy, Telegraph Engineering, Electricity, Magnetism, Light and Heat

FARMERS, Mechanics, Engineers, Inventors, Manufacturers, Chemists, Lovers of Science, Teachers, Clergymen, Lawyers, and People of all Professions, will find the SCIENTIFIC AMERICAN useful to them. It should have a place in every Family, Library, Study, Office and Counting Room; in every Reading Room, College, Academy, or School.

A year's numbers contain 832 pages and SEVERAL HUNDRED ENGRAVINGS. Thousands of volumes are preserved for binding and reference. The practical receipts are well worth ten times the subscription price. Terms $3 a year by mail. Discount to Clubs. Specimens sent free. May be had of all News Dealers.

PATENTS. In connection with the SCIENTIFIC AMERICAN, Messrs. MUNN & Co. are Solicitors of American and Foreign Patents, and have the largest establishments in the world. More than fifty thousand applications have been made for patents through their agency.

Patents are obtained on the best terms. Models of New inventions and sketches examined and advice free. All patents are published in the Scientific American the week they issue. Send for Pamphlet, 110 pages, containing laws and full directions for obtaining Patents.

THE NEW YORK TIMES.

Daily, Semi-Weekly, and Weekly.

THE NEW YORK DAILY TIMES.

IS THE

ONLY REPUBLICAN JOURNAL IN THE CITY OF NEW YORK.

The high character which THE DAILY TIMES has borne in the past is a sufficient guarantee for its conduct in the future. It will continue to advocate the cause of the public, without reference to the interests of individuals. No expense will be spared in the maintenance of its position as the foremost of American journals. It is the best daily family newspaper in the country. It has the latest news, the best foreign correspondence, and the largest staff of home correspondents. All objectionable news and advertisements are rigidly excluded.

TERMS TO MAIL SUBSCRIBERS.

THE DAILY TIMES, per annum, including the Sunday Edition.....$12
THE DAILY TIMES, per annum, exclusive of the Sunday Edition.....10
The Sunday Edition, per annum.....2

Semi-Weekly Times.

THE SEMI-WEEKLY TIMES contains a very careful epitome of our foreign and home correspondence; an interesting selection of current literature from the best foreign and domestic magazines; a choice variety of agricultural matter, and the very latest news up to the hour of going to press. TERMS—$3 per annum. Club rates—Two copies, one year, $5; Ten copies, one year, $25, and one extra copy free. New names may be added to clubs at any time during the year, at club retes.

The Weekly Times.

THE WEEKLY TIMES is undoubtedly the best paper for the farmer, for the mechanic, and for all who live in localities which are served only by weekly mails. It contains, in addition to editorial comments on current topics, an excellent condensation of the news of the week; the most important events, both home and foreign, are reviewed at length, and a large quantity of matter is given especially interesting to the farmer and mechanic. Its market reports are the fullest and most accurate in the country. TERMS—$2 per annum.

Club rates of THE WEEKLY—all to one Post Office address—Five copies, per annum, $7 50; Ten copies, per annum, $12 50; Twenty copies, per annum, $22; Thirty copies, per annum, $30, and one extra copy to each club. For every club of fifty, one copy of THE SEMI-WEEKLY TIMES to the getter-up of the club.

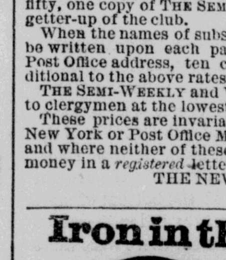

When the names of subscribers are required to be written upon each paper of the club at one Post Office address, ten cents for each copy additional to the above rates.

THE SEMI-WEEKLY and WEEKLY mailed one year to clergymen at the lowest rates.

These prices are invariable. Remit in drafts on New York or Post Office Money Orders, if possible, and where neither of these can be procured send money in a *registered* letter.
